### AECOM joint venture in Australia awarded multi-million-dollar Moreton Bay Rail project

LOS ANGELES (Nov. 26, 2013) — AECOM Technology Corporation (NYSE: ACM), a leading provider of professional technical and management support services for public and private clients in more than 140 countries around the world, announced today that a joint venture between AECOM's Australian business and Aurecon Design has been awarded a multi-million-dollar contract to deliver a component of the required design services for the US\$1.07-billion Moreton Bay Rail project in Australia.

Drawing on AECOM's business experience in Australia as part of the successful Trackstar Alliance, Thiess has engaged the joint venture to undertake the design services contract for civil and structural works, which includes stations, car parks and access roads, as well as the design of rail components.

Once complete, the Moreton Bay Rail project will provide a 7.8-mile dual-track passenger rail line between Petrie and Kippa-Ring, and six new rail stations at Kallangur, Murrumba Downs, Mango Hill, Mango Hill East, Rothwell and Kippa-Ring. The six new stations will also include commuter parking, kiss and ride, bus connectivity and facilities to encourage active transport.

"Providing a safe alternative route for residents to commute between the Moreton Bay region and Brisbane will be our primary focus for this project, which is projected to significantly alleviate highway traffic," said AECOM Chairman and Chief Executive Officer John M. Dionisio. "Having worked on this project's planning phase, we are excited to showcase our end-to-end, integrated service offerings."

Design work for the project has already commenced, with major construction expected to start in early 2014 and the new line scheduled to be operational in 2016.

#### About AECOM

AECOM is a global provider of professional technical and management support services to a broad range of markets, including transportation, facilities, environmental, energy, water and government. With approximately 45,000 employees around the world, AECOM is a leader in all of the key markets that it serves. AECOM provides a blend of global reach, local knowledge, innovation and technical excellence in delivering solutions that create, enhance and sustain the world's built, natural and social environments. A *Fortune 500* company, AECOM serves clients in more than 140 countries and had revenue of \$8.2 billion during the 12 months ended Sept. 30, 2013. More information on AECOM and its services can be found at [www.aecom.com](http://www.aecom.com).

*Forward-Looking Statements: All statements in this press release other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including any projections of earnings, statements of plans for future operations or expected revenue. Actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause actual results to differ materially from our forward-looking statements are set forth in our quarterly report on Form 10-K for the fiscal year ended Sept. 30, 2013, and our other reports filed with the U.S. Securities and Exchange Commission. AECOM does not intend, and undertakes no obligation, to update any forward-looking statement.*
