### AECOM awarded contracts worth up to US\$37.5 million by Pennsylvania Department of Transportation

LOS ANGELES (April 23, 2013) — AECOM Technology Corporation (NYSE: ACM), a leading provider of professional technical and management support services for public and private clients in more than 140 countries around the world, announced today that it was awarded several contracts with a total potential value of up to US\$37.5 million by the Pennsylvania Department of Transportation (PennDOT) to provide design solutions for repairing corridors and upgrading infrastructure on several Pennsylvania interstates.

As the lead designer on I-70 (Yukon Interchange) and I-80 (Mainline Reconstruction) in districts 12-0 (Uniontown) and 5-0 (Allentown), AECOM will provide services that include impact studies of all improvements; interchange reconfigurations; bridge inspection; permitting plans; geotechnical investigations; project management; roadway, bridge and geotechnical design; public involvement; pavement reconstruction; bridge widening and replacement; retaining wall design; Intelligent Transportation Systems support; and public outreach, among many other multi-disciplinary tasks.

As a major sub-consultant on I-78, also in district 5-0, AECOM will be responsible for all roadway design and interchange geometry analysis associated with I-78's interchange with Pennsylvania Route 61 in Hamburg.

AECOM will also act as program manager in district 6-0 (Philadelphia), responsible for day-to-day activities associated with the reconstruction on I-95 and its interchange with the Betsy Ross Bridge. This more than US\$500-million reconstruction project involves significant engineering, environmental and public involvement coordination.

"We are delighted to partner with PennDOT to support its commitment to increase safety, reliability and mobility across Pennsylvania," said John M. Dionisio, AECOM chairman and chief executive officer. "By using intelligent solutions to upgrade some of the state's most important roads, we are proud to be able to contribute to improved travel conditions for residents and visitors."

#### About AECOM

AECOM is a global provider of professional technical and management support services to a broad range of markets, including transportation, facilities, environmental, energy, water and government. With approximately 45,000 employees around the world, AECOM is a leader in all of the key markets that it serves. AECOM provides a blend of global reach, local knowledge, innovation and technical excellence in delivering solutions that create, enhance and sustain the world's built, natural, and social environments. A *Fortune 500* company, AECOM serves clients in more than 140 countries and had revenue of \$8.2 billion during the 12 months ended Dec. 31, 2012. More information on AECOM and its services can be found at [www.aecom.com](http://www.aecom.com).

*Forward-Looking Statements: All statements in this press release other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including any projections of earnings, statements of plans for future operations or expected revenue. Actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause actual results to differ materially from our forward-looking statements are set forth in our quarterly report on Form 10-Q for the fiscal quarter ended Dec. 31, 2012, and our other reports filed with the U.S. Securities and Exchange Commission. AECOM does not intend, and undertakes no obligation, to update any forward-looking statement.*
