U.S. Department of Energy extends AECOM-led joint venture contract at the Savannah River Site

LOS ANGELES (June 8, 2018) — AECOM (NYSE:ACM), a premier, fully integrated global infrastructure firm, announced today that the U.S. Department of Energy's (DOE's) Savannah River Operations Office in Aiken, South Carolina, has extended the current liquid waste management contract with AECOM-led Savannah River Remediation LLC. The approximate US\$450-million extension will run from June 1, 2018, to March 31, 2019, and was included in AECOM's backlog in the second quarter of fiscal 2018.

"We are pleased to have been awarded this contract extension," said John Vollmer, president of AECOM's Management Services group. "AECOM has a long history of supporting the DOE at the Savannah River Site and extensive experience in liquid waste disposition. We are committed to safely managing the radioactive waste system at the site while reducing the state of South Carolina's critical environmental risk."

During the contract extension period, services that the AECOM-led joint venture will perform are operating the Defense Waste Processing Facility and Saltstone Processing Facility, and continuing progress on the Tank Closure Cesium Removal demonstration and construction project and the construction of Saltstone Disposal Unit 7.

About AECOM

AECOM (NYSE:ACM) is built to deliver a better world. We design, build, finance and operate infrastructure assets for governments, businesses and organizations in more than 150 countries. As a fully integrated firm, we connect knowledge and experience across our global network of experts to help clients solve their most complex challenges. From high-performance buildings and infrastructure, to resilient communities and environments, to stable and secure nations, our work is transformative, differentiated and vital. A *Fortune 500* firm, AECOM had revenue of approximately \$18.2 billion during fiscal year 2017. See how we deliver what others can only imagine at aecom.com and [@AECOM](https://twitter.com/AECOM).

Forward-Looking Statements: All statements in this press release other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including the future term, backlog and financial impact of the liquid waste management contract as well as other future business and economic conditions. Actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important risk factors that could cause actual results to differ materially from our forward-looking statements are set forth in AECOM's periodic report on Form 10-Q for the quarter ended March 31, 2018, and other reports filed with the U.S. Securities and Exchange Commission. AECOM does not intend, and undertakes no obligation, to update any forward-looking statements.
