AECOM-led consortium wins contract for Sydney's North West Rail Link

LOS ANGELES (July 26, 2011) — AECOM Technology Corporation (NYSE: ACM), a leading provider of professional technical and management support services for government and commercial clients around the world, announced today that an AECOM-led consortium was awarded a contract by the New South Wales Government to plan and design the North West Rail Link in Sydney, Australia.

The project includes six new stations and regular rail services over a 14-mile addition to the CityRail network from Epping to Rouse Hill in North West Sydney — linking the region with more than 300 other CityRail stations. The 9 miles of tunnels between Epping and Kellyville will be the longest rail tunnels ever constructed in Sydney. The new 14-mile rail line will help reduce congestion and provide approximately 300,000 residents in the North West area with direct rail services to Epping, Macquarie Park, Chatswood, St Leonards, North Sydney and the Central Business District.

Under the contract, AECOM is the lead technical advisor with responsibility for engineering, rail systems and architecture. The company will deliver planning, project definition, design definition, systems assurance, design concept approval, reference design, contract documentation and tender assessment phases.

"AECOM is very excited to play a key role in the most significant expansion of Sydney's rail network in decades," said John M. Dionisio, AECOM president and chief executive officer. "This major award leverages AECOM's multidisciplinary expertise and global experience in rail systems development, and we look forward to supporting the continuing development of the CityRail network."

The consortium also includes Parsons Brinckerhoff, Grimshaw Architects and Cox Architects.

About AECOM

AECOM is a global provider of professional technical and management support services to a broad range of markets, including transportation, facilities, environmental, energy, water and government. With approximately 45,000 employees around the world, AECOM is a leader in all of the key markets that it serves. AECOM provides a blend of global reach, local knowledge, innovation and technical excellence in delivering solutions that create, enhance and sustain the world's built, natural and social environments. A *Fortune 500* company, AECOM serves clients in approximately 125 countries and had revenue of \$7.3 billion during the 12 months ended March 31, 2011. More information on AECOM and its services can be found at www.aecom.com.

Forward-Looking Statements: All statements in this press release other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including any projections of earnings, statements of plans for future operations or expected revenue. Actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause actual results to differ materially from our forward-looking statements are set forth in our quarterly report on Form 10-Q for the fiscal quarter ended March 31, 2011, and our other reports filed with the U.S. Securities and Exchange Commission. AECOM does not intend, and undertakes no obligation, to update any forward-looking statement.
