AECOM alliance wins US\$15-million contract for new rail link in Australia

LOS ANGELES (June 21, 2011) — AECOM Technology Corporation (NYSE: ACM), a leading provider of professional technical and management support services for government and commercial clients around the world, announced today that an alliance in which it participates, known as TrackStar Alliance, was awarded a US\$15-million contract to build transit rail infrastructure in Queensland, Australia.

The Richlands-to-Springfield section of the Darra-to-Springfield Rail program west of Brisbane, which has a construction value of US\$488 million, comprises six miles of dual track and two stations at Springfield and Springfield Lakes, including 100- and 200-space park-and-ride facilities.

“AECOM is very excited to play a key role in this important transportation project,” said John M. Dionisio, AECOM president and chief executive officer. “The new rail line will help reduce congestion and ease the commutes of travelers on Centenary Highway.”

AECOM will be providing civil and structural design of all road and rail infrastructure on the project, including alignments, drainage, pavements, utilities, bridges, station buildings and associated urban and landscape design.

The project, for Queensland Rail, includes construction of a city-bound lane on the Centenary Highway. A dedicated pedestrian and cycle path will also be built between Richlands and Springfield as part of the project.

TrackStar Alliance was created in June 2006 and has been delivering a series of projects for Queensland Rail in South East Queensland. This is the fourth major project for the TrackStar Alliance, which has previously won the Corinda-to-Darra, Caboolture-to-Beerburrum and Robina-to-Varsity Lakes rail projects.

About AECOM

AECOM is a global provider of professional technical and management support services to a broad range of markets, including transportation, facilities, environmental, energy, water and government. With approximately 45,000 employees around the world, AECOM is a leader in all of the key markets that it serves. AECOM provides a blend of global reach, local knowledge, innovation and technical excellence in delivering solutions that create, enhance and sustain the world's built, natural and social environments. A *Fortune 500* company, AECOM serves clients in approximately 125 countries and had revenue of \$7.3 billion during the 12 months ended March 31, 2011. More information on AECOM and its services can be found at www.aecom.com.

Forward-Looking Statements: All statements in this press release other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including any projections of earnings, statements of plans for future operations or expected revenue. Actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause actual results to differ materially from our forward-looking statements are set forth in our quarterly report on Form 10-Q for the fiscal quarter ended March 31, 2011, and our other reports filed with the U.S. Securities and Exchange Commission. AECOM does not intend, and undertakes no obligation, to update any forward-looking statement.
