### **AECOM awarded US\$14.7-million contract to provide design and engineering services to USAID in Mozambique**

LOS ANGELES (April 4, 2012) – AECOM Technology Corporation (NYSE: ACM), a leading provider of professional technical and management support services for public and private sector clients in more than 130 countries around the world, announced today that the U.S. Agency for International Development (USAID) has awarded the company a US\$14.7-million contract to support the Mozambique Health Infrastructure Development Program.

Under the five-year contract, AECOM will provide planning, design and construction advisory services for rural health centers, district and regional pharmaceutical warehouses, and a pharmaceutical quality-assurance laboratory and health sciences training center. The facilities will expand the program's ability to better serve the country's people and support the goals of the U.S. President's Emergency Plan for AIDS Relief, the U.S. government's initiative to reduce the impact of HIV/AIDS globally.

This work was awarded to AECOM as a task order under its USAID Global Architecture and Engineering Services Indefinite Quantity Contract.

"We are delighted to help improve the quality of life for the people of Mozambique," said John M. Dionisio, AECOM chairman and chief executive officer.
