AECOM receives Selective Catalytic Reduction Retrofit contract with Arizona Public Service

LOS ANGELES (Sept. 29, 2015) — AECOM (NYSE:ACM), a premier, fully integrated global infrastructure firm, announced today that it has been selected for the project with Arizona Public Service (APS) to engineer, procure and construct (EPC) selective catalytic reduction (SCR) retrofits and related balance of plant equipment at the Four Corners Station near Farmington, N.M.

AECOM will install SCR technology for APS Four Corners units 4 and 5 at the coal-fired power plants. AECOM has a three-decade history that represents the cleaning of more than 25,000 megawatts of coal-plant emissions and is an established market leader in SCR systems design and installation for both grassroots and retrofit projects.

“AECOM’s leading power and environmental capabilities continue to create strong opportunities for growth,” said Michael S. Burke, AECOM chairman and chief executive officer. “AECOM has significant experience at the Four Corners Generating Station, and we are pleased to once again support this important client with EPC services that advance its environmental objectives.”

The project’s value was included in AECOM’s ending backlog for the third quarter.

About AECOM

AECOM is a premier, fully integrated professional and technical services firm positioned to design, build, finance and operate infrastructure assets around the world for public- and private-sector clients. The firm’s global staff — including architects, engineers, designers, planners, scientists and management and construction services professionals — serves clients in over 150 countries around the world. AECOM is ranked as the #1 engineering design firm by revenue in *Engineering News-Record* magazine’s annual industry rankings, and has been recognized by *Fortune* magazine as a World’s Most Admired Company. The firm is a leader in all of the key markets that it serves, including transportation, facilities, environmental, energy, oil and gas, water, high-rise buildings and government. AECOM provides a blend of global reach, local knowledge, innovation and technical excellence in delivering customized and creative solutions that meet the needs of clients’ projects. A *Fortune* 500 firm, AECOM companies, including URS Corporation and Hunt Construction Group, had revenue of approximately \$19 billion during the 12 months ended June 30, 2015. More information on AECOM and its services can be found at www.aecom.com.

Forward-Looking Statements: All statements in this press release other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including statements relating to the future term, value and performance under the Arizona Public Service assignment as well as future economic and industry conditions. Actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause actual results to differ materially from our forward-looking statements include but are not limited to: demand for our services is cyclical; unexpected adjustments and cancellations related to our backlog; dependence on third party contractors who fail to satisfy their obligations; changing client preferences/demands and other risk factors set forth in our quarterly report on Form 10-Q for the fiscal quarter ended June 30, 2015 and our other reports filed with the U.S. Securities and Exchange Commission. AECOM does not intend, and undertakes no obligation, to update any forward-looking statements.
