

AECOM awarded design-build subcontract for major ring road in Saskatoon, Saskatchewan, Canada

June 3, 2010 at 7:01 AM EDT

Ring road has a total project value of approximately US\$277 million.

LOS ANGELES, Jun 03, 2010 (BUSINESS WIRE) --AECOM Technology Corporation (NYSE: ACM), a leading provider of professional technical and management support services for government and commercial clients around the world, announced today that a joint venture for which it is subcontracted as the lead designer has been awarded a design-build contract for the Circle Drive South project in Saskatoon, Saskatchewan, Canada.

Circle Drive South - the largest single construction effort in the city's history and the province's first alternative-delivery design-build transportation contract - has a total project value of approximately US\$277 million. AECOM's fees for the subcontract were not disclosed.

AECOM professionals will provide design services for this major ring road, which includes a new south bridge that will cross the South Saskatchewan River, 4.3 miles of four- to six-lane divided freeway, four roadway interchanges and four railway grade separations. AECOM will also provide railway, stormwater, environmental site-remediation and sound-attenuation services.

"This work is expected to help reduce traffic congestion in the area by nearly 35 percent," said AECOM President and Chief Executive Officer John M. Dionisio. "We are proud to aid in this effort, which will improve quality of life and the impact of traffic on the local environment."

About AECOM

AECOM (NYSE: ACM) is a global provider of professional technical and management support services to a broad range of markets, including transportation, facilities, environmental, energy, water and government. With approximately 45,000 employees around the world, AECOM is a leader in all of the key markets that it serves. AECOM provides a blend of global reach, local knowledge, innovation, and technical excellence in delivering solutions that enhance and sustain the world's built, natural, and social environments.
