

## **AECOM selected by Arizona Department of Transportation to develop plan for the statewide deployment of electric vehicle charging stations**

July 18, 2022

DALLAS--(BUSINESS WIRE)--Jul. 18, 2022-- AECOM (NYSE: ACM), the world's trusted infrastructure consulting firm, announced today it has been selected by the Arizona Department of Transportation (ADOT) Multimodal Planning Division to develop a plan for the statewide deployment of electric vehicle (EV) charging stations, which will demonstrate how ADOT can deploy EV charging stations adjacent to state alternative fuel corridors and interstates and will comply with Federal National Electric Vehicle Infrastructure (NEVI) guidance. The development of an EV infrastructure deployment plan will also educate the public, with the goal of reducing range anxiety and encouraging vehicle purchasers to consider EVs as a viable alternative to gasoline or diesel-powered vehicles.

"With the creation of the Joint Office of Energy and Transportation, there is an immense opportunity to transform how mobility is addressed within our communities," said Jennifer Aument, chief executive of AECOM's global Transportation business. "As a leader in emerging electrification technologies, we're intimately familiar with NEVI guidance and have a deep bench of capabilities to support our clients as they navigate the transportation-energy nexus. We look forward to partnering with ADOT to deliver a data-driven, strategic plan for the siting of EV chargers and assisting the state in receiving significant benefits from federal funding sources."

In addition to delivering an EV infrastructure deployment plan, AECOM's scope is expected to include project management to support goals and objectives; stakeholder engagement and outreach to help the public understand opportunities and capture feedback; existing and future conditions analysis, including charging demand and grid capacity assessment; support and guidance for future EV charging infrastructure deployment, including siting and charging location cost analysis; and federal funding compliance, such as NEVI guidance.

"Transportation electrification is key to improving environmental and public health while bolstering transit mobility, parity, and sustainability. Our team of experts, who reflect nationwide best practices and local experience, are thrilled to support Arizona's deployment of a convenient, affordable, reliable, and equitable EV network in this capacity," said Travis Boone, chief executive of AECOM's U.S. West region. "In line with our Sustainable Legacies strategy, we're proud to work with clients such as ADOT to help them achieve their electrification goals and are excited to partner with the Multimodal Planning Division to execute a successful and expedited EV infrastructure deployment plan."

AECOM is committed to delivering transformative environmental, social, and governance objectives through its [Sustainable Legacies](#) strategy, so that the work it does in partnership with its clients leaves a positive impact for years to come.

### **About AECOM**

AECOM (NYSE: ACM) is the world's trusted infrastructure consulting firm, delivering professional services throughout the project lifecycle – from planning, design and engineering to program and construction management. On projects spanning transportation, buildings, water, new energy, and the environment, our public- and private-sector clients trust us to solve their most complex challenges. Our teams are driven by a common purpose to deliver a better world through our unrivaled technical expertise and innovation, a culture of equity, diversity and inclusion, and a commitment to environmental, social and governance priorities. AECOM is a Fortune 500 firm and its Professional Services business had revenue of \$13.3 billion in fiscal year 2021. See how we are delivering sustainable legacies for generations to come at [aecom.com](#) and @AECOM.

### **Forward-Looking Statements**

*All statements in this communication other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including any statements of the plans, strategies and objectives for future operations, profitability, strategic value creation, coronavirus impacts, risk profile and investment strategies, and any statements regarding future economic conditions or performance, and the expected financial and operational results of AECOM. Although we believe that the expectations reflected in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause our actual results, performance and achievements, or industry results to differ materially from estimates or projections contained in our forward-looking statements include, but are not limited to, the following: our business is cyclical and vulnerable to economic downturns and client spending reductions; impacts caused by the coronavirus and the related economic instability and market volatility, including the reaction of governments to the coronavirus, including any prolonged period of travel, commercial or other similar restrictions, the delay in commencement, or temporary or permanent halting of construction, infrastructure or other projects, requirements that we remove our employees or personnel from the field for their protection, and delays or reductions in planned initiatives by our governmental or commercial clients or potential clients; losses under fixed-price contracts; limited control over operations run through our joint venture entities; liability for misconduct by our employees or consultants; failure to comply with laws or regulations applicable to our business; maintaining adequate surety and financial capacity; potential high leverage and inability to service our debt and guarantees; ability to continue payment of dividends; exposure to political and economic risks in different countries, including tariffs; currency exchange rate and interest fluctuations; retaining and recruiting key technical and management personnel; legal claims; inadequate insurance coverage; environmental law compliance and inadequate nuclear indemnification; unexpected adjustments and cancellations related to our backlog; partners and third parties who may fail to satisfy their legal obligations; AECOM Capital's real estate development; managing pension cost;*

*cybersecurity issues, IT outages and data privacy; risks associated with the benefits and costs of various dispositions such as the sale of our Management Services, self-perform at-risk civil infrastructure, power construction, and oil and gas construction businesses, including the risk that purchase price adjustments, if any, from those transactions could be unfavorable and any future proceeds owed to us as part of those transactions could be lower than we expect; as well as other additional risks and factors that could cause actual results to differ materially from our forward-looking statements set forth in our reports filed with the Securities and Exchange Commission. Any forward-looking statements are made as of the date hereof. We do not intend, and undertake no obligation, to update any forward-looking statement.*
