

AECOM part of a winning team led by GDIT to support U.S. Environmental Protection Agency in improving water infrastructure resiliency nationwide

June 22, 2023

DALLAS--(BUSINESS WIRE)--Jun. 22, 2023-- AECOM (NYSE: ACM), the world's trusted infrastructure consulting firm, announced today it is part of the winning team that has been awarded a five-year, single-award indefinite delivery, indefinite quantity contract to support the U.S. Environmental Protection Agency (EPA) in its mission to protect and secure the nation's drinking water and wastewater infrastructure. As part of a project team led by General Dynamics Information Technology (GDIT), AECOM will provide engineering subject matter expertise in technical, cyber, education and program management services to the EPA Water Infrastructure and Cyber Resilience Division.

"Through our [Sustainable Legacies](#) strategy, we're continuing to win work with organizations driving transformative environmental progress, prioritizing equity and resilience across our projects," said Beverley Stinson, chief executive of AECOM's global Water business. "As we expand access to clean, safe water resources worldwide, we're proud to work with GDIT in support of the EPA to safeguard this essential resource for current and future generations."

AECOM will partner with GDIT to provide technical assistance, public engagement, security and resilience expertise, and program management support, studying existing risk management practices and developing guidance and training efforts to strengthen the EPA's hazard preparedness, response, and recovery capabilities.

Assessing baseline resiliency and the impacts of natural and manmade threats across the water sector, AECOM will identify and deliver advanced hazard mitigation approaches for water systems nationwide. This will involve creating incident-specific emergency response plans, updating facilities design standards, and driving training for governments, utilities, tribal authorities, public health agencies, and other stakeholders.

"Amidst climate change, cybersecurity risks and other emerging hazards, resilient water infrastructure has become paramount—and demands multidisciplinary expertise to successfully deliver," said Drew Jeter, chief executive of AECOM's Program Management global business line. "Our broad global resources, spanning water treatment and distribution, climate resiliency, program management and digital innovation, uniquely equip us to partner with GDIT to help protect the U.S. water sector, readying it for a new generation of challenges."

About AECOM

AECOM (NYSE: ACM) is the world's trusted infrastructure consulting firm, delivering professional services throughout the project lifecycle—from advisory, planning, design and engineering to program and construction management. On projects spanning transportation, buildings, water, new energy and the environment, our public- and private-sector clients trust us to solve their most complex challenges. Our teams are driven by a common purpose to deliver a better world through our unrivaled technical and digital expertise, a culture of equity, diversity and inclusion, and a commitment to environmental, social and governance priorities. AECOM is a Fortune 500 firm and its Professional Services business had revenue of \$13.1 billion in fiscal year 2022. See how we are delivering sustainable legacies for generations to come at [aecom.com](https://www.aecom.com) and @AECOM.

Forward-Looking Statements

All statements in this communication other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including any statements of the plans, strategies and objectives for future operations, profitability, strategic value creation, risk profile and investment strategies, and any statements regarding future economic conditions or performance, and the expected financial and operational results of AECOM. Although we believe that the expectations reflected in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause our actual results, performance and achievements, or industry results to differ materially from estimates or projections contained in our forward-looking statements include, but are not limited to, the following: our business is cyclical and vulnerable to economic downturns and client spending reductions; limited control over operations that run through our joint venture entities; liability for misconduct by our employees or consultants; failure to comply with laws or regulations applicable to our business; maintaining adequate surety and financial capacity; potential high leverage and inability to service our debt and guarantees; ability to continue payment of dividends; exposure to political and economic risks in different countries, including tariffs; currency exchange rate and interest fluctuations; retaining and recruiting key technical and management personnel; legal claims; inadequate insurance coverage; environmental law compliance and adequate nuclear indemnification; unexpected adjustments and cancellations related to our backlog; partners and third parties who may fail to satisfy their legal obligations; AECOM Capital real estate development projects; managing pension cost; cybersecurity issues, IT outages and data privacy; risks associated with the expected benefits and costs of the sale of our Management Services and self-perform at-risk civil infrastructure, power construction and oil and gas construction businesses, including the risk that any contingent purchase price adjustments from those transactions could be unfavorable and result in lower aggregate cash proceeds and any future proceeds owed to us under those transactions could be lower than we expect; as well as other additional risks and factors that could cause actual results to differ materially from our forward-looking statements set forth in our reports filed with the Securities and Exchange Commission. Any forward-looking statements are made as of the date hereof. We do not intend, and undertake no obligation, to update any forward-looking statement.
