

## **AECOM to serve as program manager for the Portal rail extension in San Francisco**

August 21, 2024 at 6:55 AM EDT

DALLAS--(BUSINESS WIRE)--Aug. 21, 2024-- AECOM (NYSE: ACM) the world's trusted infrastructure consulting firm, today announced AECOM and the Portal Connectors team, has been selected by the Transbay Joint Powers Authority (TJPA) to provide program management and construction management services for the Downtown Rail Extension (DTX) project, also known as the Portal. The tunneling and station megaproject will extend Caltrain service from its current terminal at Fourth and King Streets to the Salesforce Transit Center and accommodate future California High-Speed Rail service. Once complete, the extension will serve as a key regional rail connection with a combined average ridership forecast of 90,000 daily riders connecting with 11 Bay area transit systems.

"AECOM has been proud to support the TJPA since the inception of the Transbay Program, and we're thrilled to help deliver the next phase of this transformative investment," said Mark Southwell, chief executive of AECOM's global Transportation business. "Our world class tunneling capabilities and fully integrated service offerings address all aspects of large-scale tunnel projects, making us well positioned to deliver this crucial work that will serve as a lynchpin for the region's long-term transit needs."

Portal Connectors, a team led by AECOM, will be responsible for implementing an operating model to successfully deliver an array of program management and project supervision services in support of the Portal. This includes effective execution of key activities such as obtaining FTA funding, finalizing the procurement plan in 2024, activating collaborative delivery models, designing and building the tunnel stations, and integrating The Portal with existing rail systems and operations.

The 1.3-mile rail extension is expected to be constructed principally below grade using cut-and-cover and mined tunneling methods underneath Townsend and Second Streets. The project includes an underground station at Fourth and Townsend Streets along with the Salesforce Transit Center's basement levels, utility relocation, track and systems work.

"Our capabilities across all forms of rail projects, from urban transit to high-speed and regional rail, continue to make us a trusted partner for our global clients seeking integrated rail solutions," said Drew Jeter, chief executive of AECOM's Program Management global business line. "We look forward to leveraging these capabilities as we help deliver this multi-modal transit hub, which will support transformative mobility and environmental benefits for the Bay Area and beyond."

The Portal is the second phase of the TJPAs \$12 billion Transbay Program. The first phase replaced the former Transbay Terminal in downtown San Francisco with the modern, multimodal Salesforce Transit Center.

### **About AECOM**

AECOM (NYSE: ACM) is the world's trusted infrastructure consulting firm, delivering professional services throughout the project lifecycle – from advisory, planning, design and engineering to program and construction management. On projects spanning transportation, buildings, water, new energy, and the environment, our public- and private-sector clients trust us to solve their most complex challenges. Our teams are driven by a common purpose to deliver a better world through our unrivaled technical and digital expertise, a culture of equity, diversity and inclusion, and a commitment to environmental, social and governance priorities. AECOM is a Fortune 500 firm and its Professional Services business had revenue of \$14.4 billion in fiscal year 2023. See how we are delivering sustainable legacies for generations to come at [aecom.com](https://www.aecom.com) and @AECOM.

### **Forward-Looking Statements**

All statements in this communication other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including any statements of the plans, strategies and objectives for future operations, profitability, strategic value creation, capital allocation strategy including stock repurchases, risk profile and investment strategies, and any statements regarding future economic conditions or performance, and the expected financial and operational results of AECOM. Although we believe that the expectations reflected in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause our actual results, performance and achievements, or industry results to differ materially from estimates or projections contained in our forward-looking statements include, but are not limited to, the following: our business is cyclical and vulnerable to economic downturns and client spending reductions; potential government shutdowns or other funding circumstances that may cause governmental agencies to modify, curtail or terminate our contracts; losses under fixed-price contracts; limited control over operations that run through our joint venture entities; liability for misconduct by our employees or consultants; failure to comply with laws or regulations applicable to our business; maintaining adequate surety and financial capacity; potential high leverage and inability to service our debt and guarantees; ability to continue payment of dividends; exposure to political and economic risks in different countries, including tariffs, geopolitical events, and conflicts; currency exchange rate and interest fluctuations; retaining and recruiting key technical and management personnel; legal claims; inadequate insurance coverage; environmental law compliance and adequate nuclear indemnification; unexpected adjustments and cancellations related to our backlog; partners and third parties who may fail to satisfy their legal obligations; managing pension costs; AECOM Capital real estate development projects; cybersecurity issues, IT outages and data privacy; risks associated with the benefits and costs of the sale of our Management Services and self-perform at-risk civil infrastructure, power construction and oil and gas businesses, including the risk that any purchase adjustments from those transactions could be unfavorable and result in any future proceeds owed to us as part of the transactions could be lower than we expect; as well as other additional risks and factors that

could cause actual results to differ materially from our forward-looking statements set forth in our reports filed with the Securities and Exchange Commission. Any forward-looking statements are made as of the date hereof. We do not intend, and undertake no obligation, to update any forward-looking statement.
