

AECOM to provide detailed design services to support delivery of Sydney Metro West

February 11, 2026 at 6:55 AM EST

DALLAS--(BUSINESS WIRE)--Feb. 11, 2026-- AECOM (NYSE: ACM), the trusted global infrastructure leader, today announced it will deliver detailed design services for the Sydney Metro West Linewide Systems package in a joint venture with WSP, supporting John Holland, the project lead and contractor. Sydney Metro West is a transformative project that is expected to double rail capacity between Parramatta and Sydney CBD, providing Sydney with fast and reliable transportation and aiding the city's rapid growth.

The joint venture will lead the design of the 24-kilometer twin-bore tunnel fit out, a new metro train depot and service facility, a new metro traction power system and tunnel ventilation system, and the train systems, operations and maintenance package.

"Sydney Metro West will play a vital role in shaping a more connected, livable Sydney, delivering faster, more reliable journeys for communities now and into the future," said Mark McManamy, AECOM's chief executive for its Australia New Zealand region. "AECOM is globally recognized for our ability to deliver rail systems at this scale, and we'll apply AECOM's depth of expertise from Australia, New Zealand, the United Kingdom, Europe and Hong Kong to deliver a safe, reliable and sustainable metro for Sydney."

AECOM is delivering a better world through the application of cutting-edge digital technologies. On the Sydney Metro West project, the joint venture's advanced digital delivery approach will guide the design and management of this complex, major rail system. The project will feature fully automated modelling for the tunnel fit-out systems, enabling efficient updates and seamless integration across the long linear rail network and the containment infrastructure, spanning the two 24-kilometer tunnels. A collaborative digital design environment will be implemented to enhance coordination across design offices in Australia, New Zealand, Europe and Asia, enabling seamless stakeholder reviews and efficient feedback resolution.

"We are proud to support the delivery of one of Sydney's most complex and impactful transportation projects," said Mark Southwell, chief executive of AECOM's global Transportation business. "Our unmatched technical excellence, approach to innovation, and deep history of delivering transformative infrastructure in Sydney make us ideally positioned to deliver on this project, and these advantages are part of why AECOM remains *Engineering News-Record's* number one transportation firm in the world."

The appointment as designer for the Sydney Metro West Linewide Systems package builds on AECOM's track record of successfully delivering on large, complex rail systems in Australia and New Zealand, including the recently opened Metro Tunnel in Melbourne, the METRONET in Perth, and the soon-to-open City Rail Link in Auckland.

About AECOM

AECOM (NYSE: ACM) is the global infrastructure leader, committed to delivering a better world. As a trusted professional services firm powered by deep technical abilities, we solve our clients' complex challenges in water, environment, energy, transportation and buildings. Our teams partner with public- and private-sector clients to create innovative, sustainable and resilient solutions throughout the project lifecycle – from advisory, planning, design and engineering to program and construction management. AECOM is a Fortune 500 firm that had revenue of \$16.1 billion in fiscal year 2025. Learn more at [aecom.com](https://www.aecom.com).

Forward-Looking Statements

All statements in this communication other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including any statements of the plans, strategies and objectives for future operations, profitability, strategic value creation, capital allocation strategy including stock repurchases, risk profile and investment strategies, and any statements regarding future economic conditions or performance, and the expected financial and operational results of AECOM. Although we believe that the expectations reflected in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause our actual results, performance and achievements, or industry results to differ materially from estimates or projections contained in our forward-looking statements include, but are not limited to, the following: our business is cyclical and vulnerable to economic downturns and client spending reductions; government shutdowns or other funding circumstances that cause governmental agencies to modify, curtail or terminate our contracts; losses under fixed-price contracts; limited control over operations that run through our joint venture entities; liability for misconduct by our employees or consultants; failure to comply with laws or regulations applicable to our business; maintaining adequate surety and financial capacity; potential high leverage and inability to service our debt and guarantees; our capital allocation strategy, including ability to continue payment of dividends and stock repurchases; exposure to political and economic risks in different countries, including tariffs, geopolitical events, and conflicts; currency exchange rate and interest fluctuations; retaining and recruiting key technical and management personnel; legal claims; inadequate insurance coverage; environmental law compliance and adequate nuclear indemnification; unexpected adjustments and cancellations related to our backlog; partners and third parties who may fail to satisfy their legal obligations; managing pension costs; AECOM Capital real estate development projects; cybersecurity issues, IT outages and data privacy; risks associated with the benefits and costs of the sale of our Management Services and self-perform at-risk civil infrastructure, power construction and oil and gas businesses, including the risk that any purchase adjustments from those transactions could be unfavorable and result in any future proceeds owed to us as part of the transactions could be lower than we expect; risks associated with strategic initiatives, including AI investments and potential acquisitions and divestitures; as well as other additional risks and factors that could cause actual results to differ materially from our forward-looking statements set forth in our reports filed with the Securities and Exchange

Commission. Any forward-looking statements are made as of the date hereof. We do not intend, and undertake no obligation, to update any forward-looking statement.
