SECURITIES AND EXCHANGE COMMISSION**
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended December 31, 2009

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 0-52423

AECOM TECHNOLOGY CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

61-1088522

(I.R.S. Employer Identification Number)

555 South Flower Street, Suite 3700

Los Angeles, California 90071

(Address of principal executive office and zip code)

(213) 593-8000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of February 1, 2010, 113,968,304 shares of the registrant's common stock were outstanding.

AECOM Technology Corporation
Notes to Consolidated Financial Statements
(unaudited)

1. Basis of Presentation

The accompanying consolidated financial statements of AECOM Technology Corporation (the Company) are unaudited and, in the opinion of management, include all adjustments necessary for a fair statement of the Company's financial position and results of operations for the periods presented. All inter-company balances and transactions are eliminated in consolidation.

The consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Form 10-K for the fiscal year ended September 30, 2009. The accompanying unaudited consolidated financial statements and related notes have been prepared in accordance with generally accepted accounting principles (GAAP) in the U.S. for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements.

The results of operations for the three months ended December 31, 2009 are not necessarily indicative of the results to be expected for the fiscal year ending September 30, 2010.

The Company reports its annual results of operations based on 52 or 53-week periods ending on the Friday nearest September 30. The Company reports its quarterly results of operations based on periods ending on the Friday nearest December 31, March 31, and June 30. For clarity of presentation, all periods are presented as if the periods ended on September 30, December 31, March 31, and June 30.

2. Adoption of Changes in Accounting Principles

In December 2007, the Financial Accounting Standards Board (FASB) issued ASC 810-10, "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51" (ASC 810-10). ASC 810-10 requires all entities to report noncontrolling interests in subsidiaries as a separate component of equity in the consolidated balance sheet and to reflect net income attributable to noncontrolling interests below net income on the consolidated statement of income. The Company adopted ASC 810-10 during the first quarter ended December 31, 2009. Accordingly, prior periods have been restated to reflect these reclassifications.

In December 2007, the FASB issued ASC 805-10, "Business Combinations" (ASC 805-10). ASC 805-10 significantly changes the way companies account for business combinations and will generally require more assets acquired and liabilities assumed to be measured at their acquisition-date fair value. Under ASC 805-10, legal fees and other transaction-related costs are expensed as incurred and are no longer included as a cost of acquiring the business. ASC 805-10 also requires, among other things, acquirers to estimate the acquisition-date fair value of any contingent consideration and to recognize any subsequent changes in the fair value of contingent consideration in earnings. In addition, restructuring costs the acquirer expects, but is not obligated to incur, must be recognized separately from the business acquisition. This pronouncement has been applied by the Company to all acquisitions consummated on or after October 1, 2009. Transaction and restructuring costs expensed as a result of the adoption of ASC 805-10 were not material.

3. Recently Issued Accounting Pronouncements

In October 2009, the FASB issued Accounting Standards Update No. 2009-13 "Multiple-Deliverable Revenue Arrangements—a consensus of the FASB Emerging Issues Task Force" (ASU 2009-13) which updates ASC Topic 605, "Revenue Recognition." ASU 2009-13 provides another alternative for determining the selling price of deliverables and will allow companies to allocate arrangement consideration in multiple deliverable arrangements in a manner that better reflects the transaction's economics and could result in earlier revenue recognition. ASU 2009-13 is effective for the Company prospectively for revenue arrangements entered into or materially modified on or after October 1, 2010; however, early adoption is permitted. The Company is currently evaluating the impact of adopting ASU 2009-13 on its financial statements.

In June 2009, the FASB issued ASC 810-10-05, "Amendments to FASB Interpretation No. 46(R)" (ASC 810-05). ASC 810-05 amends prior accounting for variable interests and requires a company to perform an analysis to determine whether its interests give it a controlling financial interest in a variable interest entity. A company must also assess whether it has the power to direct the activities of the variable interest entity and whether it has the obligation to absorb losses or the right to receive benefits that could potentially be significant to the variable interest entity. ASC 810-05 requires an ongoing reassessment of whether a company is the primary beneficiary of a variable interest entity, eliminates the quantitative approach previously required for determining the primary beneficiary of a variable interest entity and expands required disclosures. ASC 810-05 may be applied retrospectively in previously issued financial statements with a cumulative-effect adjustment to retained earnings as of the beginning of the first year restated. ASC 810-05 is effective for the Company in its fiscal year ending September 30, 2011. The Company is currently evaluating the impact that the adoption of ASC 810-05 will have on its financial statements.

[Table of Contents](#)

In December 2008, the FASB issued ASC 715-20-65, "Employers' Disclosures about Postretirement Benefit Plan Assets" (ASC 715-20-65). ASC 715-20-65 amends SFAS No. 132, "Employers' Disclosures about Pensions and Other Postretirement Benefits," to provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. The additional disclosure requirements include expanded disclosure about an entity's investment policies and strategies, the categories of plan assets, concentrations of credit risk and fair value measurements of plan assets. This standard is effective for the Company in its fiscal year ending September 30, 2010. The Company will amend its disclosures accordingly beginning with the financial statements included in its fiscal year 2010 Form 10-K.

4. Business Acquisitions, Goodwill and Intangible Assets

Three business acquisitions were completed during the quarter ended December 31, 2009, which were immaterial both individually and in the aggregate. Additionally, the Company gained control of an entity and commenced consolidating it during the quarter ended December 31, 2009. Total consideration related to acquisitions consisted of \$39.6 million in cash, net of cash acquired, and \$33.5 million in Company stock.

The changes in the carrying value of goodwill by reporting segment for the three months ended December 31, 2009 and 2008 were as follows:

	September 30, 2009	Post- Acquisition Adjustments	Foreign Exchange Impact (in thousands)	Acquired	December 31, 2009
Professional Technical Services	\$ 1,060,093	\$ (1,912)	\$ 4,776	\$ 46,054	\$ 1,109,011
Management Support Services	2,826	—	—	21,822	24,648
Total	\$ 1,062,919	\$ (1,912)	\$ 4,776	\$ 67,876	\$ 1,133,659

	September 30, 2008	Post- Acquisition Adjustments	Foreign Exchange Impact (in thousands)	Acquired	December 31, 2008
Professional Technical Services	\$ 946,263	\$ 22,954	\$ (23,527)	\$ —	\$ 945,690
Management Support Services	2,826	—	—	—	2,826
Total	\$ 949,089	\$ 22,954	\$ (23,527)	\$ —	\$ 948,516

The gross amounts and accumulated amortization of the Company's acquired identifiable intangible assets with finite useful lives as of December 31, 2009 and September 30, 2009, included in intangible assets—net, in the accompanying consolidated balance sheets, were as follows:

	December 31, 2009		September 30, 2009	
	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
	(in thousands)			
Backlog	\$ 68,184	\$ 60,007	\$ 63,137	\$ 55,021
Customer Relationships	77,085	18,237	69,999	16,136
Total	\$ 145,269	\$ 78,244	\$ 133,136	\$ 71,157

At the time of acquisition, the Company preliminarily estimates the amount of the identifiable intangible assets acquired based upon historical valuations of similar acquisitions and the facts and circumstances available at the time. The Company determines the final value of the identifiable intangible assets as soon as information is available, but not more than 12 months from the date of acquisition. The Company has yet to complete its final valuation of intangible assets for certain of the immaterial business acquisitions noted above.

The following table presents estimated amortization expense of existing intangible assets for the remainder of fiscal 2010 and for the succeeding years:

Fiscal Year	(in thousands)
2010	\$ 11,469
2011	10,693
2012	8,018
2013	8,018
2014	8,018
Thereafter	20,809
Total	\$ 67,025

[Table of Contents](#)

5. Discontinued Operations

Assets and liabilities held for sale primarily related to a non-strategic business in the United Kingdom, which was acquired as part of the acquisition of Earth Tech into the Company's Professional Technical Services segment and was disposed of during the first quarter ended December 31, 2009.

For the three months ended December 31, 2009 and 2008, the summarized results of the discontinued operation, included in the Company's results of operations, is as follows (in millions):

Three Months Ended December 31, 2009	Three Months Ended December 31, 2008
-----------------------------------------	-----------------------------------------

Revenue	\$	13.2	\$	17.1
Earnings before income taxes	\$	0.3	\$	0.6
Income tax expense		0.2		0.1
Earnings from discontinued operations, net of tax	\$	0.1	\$	0.5

6. Restructuring Costs

In fiscal 2009, in connection with the Earth Tech acquisition, the Company initiated plans for workforce reductions and facility closures. During the quarter ended December 31, 2009, the Company initiated a restructuring plan for its United Kingdom operations to reduce ongoing overhead costs and improve operating efficiencies. The accrued restructuring costs are expected to be paid over the next five years. The following table presents a reconciliation of the restructuring reserve balance from October 1, 2009 to December 31, 2009.

	Three Months Ended December 31, 2009		
	Severance Costs	Facility Costs	Total
	(in millions)		
Accrual, beginning of the period	\$ 1.7	\$ 26.3	\$ 28.0
Accrued and other adjustments during the period	4.5	0.6	5.1
Paid during the period	(1.5)	(1.4)	(2.9)
Accrual, end of the period	\$ 4.7	\$ 25.5	\$ 30.2

7. Accounts Receivable—Net

Net accounts receivable consisted of the following as of December 31, 2009 and September 30, 2009:

	December 31, 2009	September 30, 2009
	(in thousands)	
Billed	\$ 1,011,934	\$ 992,444
Unbilled	829,133	785,783
Contract retentions	53,047	55,203
Total accounts receivable—gross	1,894,114	1,833,430
Allowance for doubtful accounts	(99,857)	(100,471)
Total accounts receivable—net	\$ 1,794,257	\$ 1,732,959

Billed accounts receivable represent amounts billed to clients that have yet to be collected. Unbilled accounts receivable represent revenue recognized but not yet billed pursuant to contract terms or accounts billed after the period end. Substantially all unbilled receivables as of December 31, 2009 and September 30, 2009 are expected to be billed and collected within twelve months of such date. Contract retentions represent amounts invoiced to clients where payments have been withheld pending the completion of certain milestones, other contractual conditions or upon the completion of the project. These retention agreements vary from project to project and could be outstanding for several months or years.

Allowances for doubtful accounts have been determined through specific identification of amounts considered to be uncollectible and potential write-offs, plus a non-specific allowance for other amounts for which some potential loss has been determined to be probable based on current and past experience.

[Table of Contents](#)

Other than the U.S. government, no single client accounted for more than 10% of the Company's accounts receivable as of December 31, 2009 or September 30, 2009.

8. Disclosures About Pension Benefit Obligations

The following table details the components of net periodic benefit cost for the plans for the three months ended December 31, 2009 and 2008:

	Three Months Ended			
	December 31, 2009		December 31, 2008	
	U.S.	Int'l	U.S.	Int'l
	(in thousands)			
Components of net periodic (benefit) cost:				
Service costs	\$ —	\$ 1,336	\$ 463	\$ 1,095
Interest cost on projected benefit obligation	2,011	5,526	2,154	5,439
Expected return on plan assets	(1,996)	(6,151)	(1,959)	(5,661)
Amortization of prior service costs	—	(83)	(159)	(79)
Amortization of net loss	341	610	487	750
Curtailed (gain) / loss recognized	(1,933)	—	—	—
Net periodic (benefit) cost	\$ (1,577)	\$ 1,238	\$ 986	\$ 1,544

The total amounts of employer contributions paid for the three months ended December 31, 2009 were \$3.2 million for U.S. plans and \$3.9 million for non-U.S. plans. The expected remaining scheduled annual employer contributions for the fiscal year ending September 30, 2010 are \$2.1 million for U.S. plans and \$13.5 million for non-U.S. plans. During the quarter ended December 31, 2009, the Company adopted an amendment to freeze pension plan benefit accruals for certain U.S. employee plans resulting in a curtailment gain of \$1.9 million. Included in other long-term liabilities are net pension liabilities of \$124.2 million and \$132.5 million as of December 31 and September 30, 2009, respectively.

9. Fair Value Measurements

In September 2006, the FASB issued ASC 820-10, "Fair Value Measurements" (ASC 820-10), which defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. ASC 820-10 was effective for the Company on October 1, 2008 for all financial assets and liabilities and for nonfinancial assets and liabilities recognized or disclosed at fair value in its consolidated financial statements on a recurring basis (at least annually).

Effective October 1, 2009, the Company adopted the fair value measurement guidance for all nonfinancial assets and liabilities recognized or disclosed at fair value in the financial statements on a nonrecurring basis. These assets and liabilities include items such as goodwill and long lived assets that are measured at fair value resulting from impairment, if deemed necessary. During the first quarter ended December 31, 2009, the Company did not record any fair market value adjustments to those financial and nonfinancial assets and liabilities measured at fair value on a nonrecurring basis.

The following table summarizes the Company's financial assets and liabilities measured at fair value on a recurring basis (at least annually) in millions:

	December 31, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Deferred compensation plan assets (1)	\$ 0.5	\$ 0.5	\$ —	\$ —
Total assets	<u>\$ 0.5</u>	<u>\$ 0.5</u>	<u>\$ —</u>	<u>\$ —</u>
Deferred compensation plan liability (1)	\$ 90.8	\$ —	\$ 90.8	\$ —
Derivative liabilities (2)	1.2	—	1.2	—
Total liabilities	<u>\$ 92.0</u>	<u>\$ —</u>	<u>\$ 92.0</u>	<u>\$ —</u>

8

[Table of Contents](#)

	September 30, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Deferred compensation plan assets (1)	\$ 0.6	\$ 0.6	\$ —	\$ —
Total assets	<u>\$ 0.6</u>	<u>\$ 0.6</u>	<u>\$ —</u>	<u>\$ —</u>
Deferred compensation plan liability (1)	\$ 92.8	\$ —	\$ 92.8	\$ —
Derivative liabilities (2)	1.9	—	1.9	—
Total liabilities	<u>\$ 94.7</u>	<u>\$ —</u>	<u>\$ 94.7</u>	<u>\$ —</u>

- (1) The Company maintains a participant-directed, non-qualified deferred compensation plan structured as a rabbi trust (a trust established to provide a source of funds for the plan on a tax-deferred basis) for eligible highly compensated employees. The rabbi trust held approximately \$0.5 million and \$0.6 million, or 1% of its investment assets, in marketable securities valued using quoted market prices as of December 31, 2009 and September 30, 2009, respectively. The remaining assets, not reflected in this table, of \$61.7 million and \$53.7 million, respectively, are valued at cash surrender value and not subject to disclosure. The related deferred compensation liability represents the fair value of the participant deferrals. For additional information about the Company's deferred compensation plan, refer to Note 17 to Consolidated Financial Statements in the Company's 2009 Form 10-K and Note 13 herein.
- (2) For additional information about the Company's fair value measurements of these interest rate swap agreements, refer to Notes 1 and 11 to Consolidated Financial Statements in the Company's 2009 Form 10-K.

10. Stock-Based Compensation

The fair value of the Company's stock option awards is estimated on the date of grant using the Black-Scholes option-pricing model. The expected term of awards granted represents the period of time the awards are expected to be outstanding. As the Company's common stock has only been publicly-traded since May 2007, expected volatility was based on a historical volatility, for a period consistent with the expected option term, of publicly-traded peer companies. The risk-free interest rate is based on U.S. Treasury bond rates with maturities equal to the expected term of the option on the grant date. The Company uses historical data as a basis to estimate the probability of forfeitures.

The fair value of options granted during the three months ended December 31, 2009 and 2008 were determined using the following weighted average assumptions:

	Three Months Ended December 31,	
	2009	2008
Dividend yield	—	—
Expected volatility	40%	38%
Risk-free interest rate	1.6%	1.8%
Term (in years)	4.5	4.5

For the three months ended December 31, 2009 and 2008, compensation expense recognized related to stock options as a result of the fair value method was \$1.3 million and \$0.9 million, respectively. Unrecognized compensation expense relating to stock options outstanding as of December 31, and September 30, 2009 was \$8.1 million and \$6.8 million, respectively, to be recognized over the awards' respective vesting periods, which are generally three years.

Stock option activity for the three months ended December 31, 2009 and 2008 was as follows:

	2009		2008	
	Shares of stock under options (in thousands)	Weighted average exercise price	Shares of stock under options (in thousands)	Weighted average exercise price
Outstanding at September 30	3,806	\$ 16.36	5,309	\$ 11.78
Options granted	321	24.45	807	23.95
Options exercised	(138)	9.97	(909)	8.25
Options forfeited or expired	(5)	10.59	(7)	20.85
Outstanding at December 31	<u>3,984</u>	<u>17.24</u>	<u>5,200</u>	<u>14.28</u>
Vested and expected to vest in the future as of				
December 31	<u>3,912</u>	<u>\$ 16.93</u>	<u>5,140</u>	<u>\$ 14.11</u>

The weighted average grant-date fair value of stock options granted during the three months ended December 31, 2009 and 2008 was \$8.60 and \$8.14, respectively.

[Table of Contents](#)

The Company grants stock units under the Performance Earnings Program (PEP), whereby units are earned and issued dependent upon meeting established cumulative performance objectives over a three-year period. The Company recognized compensation expense relating to the PEP of \$5.3 million and \$4.4 million during the three months ended December 31, 2009 and 2008, respectively. Additionally, the Company issues restricted stock units which are earned based on service conditions, resulting in compensation expense of \$1.8 million and \$0.1 million during the three months ended December 31, 2009 and 2008, respectively. Unrecognized compensation expense related to PEP units and restricted stock units outstanding was \$34.1 million and \$19.6 million as of December 31, 2009 and \$21.2 million and \$3.9 million as of September 30, 2009, respectively, to be recognized over the awards' respective vesting periods which are generally three years.

Cash flows attributable to tax benefits resulting from tax deductions in excess of compensation cost recognized for those stock options (excess tax benefits) is classified as financing cash flows. Excess tax benefits of \$0.8 million and \$4.6 million for the three months ended December 31, 2009 and 2008, respectively, have been classified as financing cash inflows in the Consolidated Statements of Cash Flows.

11. Income Taxes

A number of tax years are under audit by the relevant federal, state and foreign tax authorities. The Company is currently under examination by the U.S. Internal Revenue Service for the fiscal years 2006 and 2007. During the three months ended December 31, 2009, the Company settled the portion of this audit relating to Research & Experimentation Credits. As a result, of this settlement, the Company recorded a \$3.2 million reduction to income tax expense during the quarter ended December 31, 2009. The effective tax rate was 24.9% and 28.8% for the three months ended December 31, 2009 and 2008, respectively. The decrease was primarily due to this settlement.

The Company anticipates that some of the audits may be concluded in the foreseeable future, including in fiscal year 2010. Based on the status of these audits, it is reasonably possible that the conclusion of the audits may result in a reduction of unrecognized tax benefits. However, it is not possible to estimate the impact of this change at this time due to the status of the tax examinations.

12. Net Income Per Share

Basic net income per share (EPS) excludes dilution and is computed by dividing net income available for common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net income attributable to AECOM by the weighted average number of common shares outstanding and dilutive potential common shares for the period. The Company includes as potential common shares the weighted average dilutive effects of outstanding stock options using the treasury stock method.

The following table sets forth a reconciliation of the denominators for basic and diluted EPS:

	Three Months Ended	
	December 31, 2009	December 31, 2008
	(in thousands)	
Denominator for basic earnings per share	113,153	104,529
Potential common shares:		
Stock options	1,124	1,972
Other	221	119
Denominator for diluted earnings per share	<u>114,498</u>	<u>106,620</u>

For the three months ended December 31, 2009 and 2008, no options were excluded from the calculation of potential common shares because they were considered anti-dilutive.

13. Other Financial Information

Accrued expenses consist of the following:

	December 31, 2009	September 30, 2009
	(in millions)	
Accrued salaries and benefits	\$ 263.3	\$ 323.3
Accrued contract costs	369.5	358.2

Deferred compensation plan liability	90.8	—
Other accrued expenses	45.2	41.0
	<u>\$ 768.8</u>	<u>\$ 722.5</u>

[Table of Contents](#)

Accrued contract costs above include balances related to professional liability risks of \$101.8 million and \$98.3 million as of December 31, 2009 and September 30, 2009, respectively. Accrued contract costs primarily relate to costs for services provided by subcontractors and other non-employees.

Other long-term liabilities consist of the following:

	December 31, 2009	September 30, 2009
	(in millions)	
Pension liabilities (Note 8)	\$ 124.2	\$ 132.5
Deferred compensation plan liability	—	92.8
Reserve for uncertain tax positions (Note 11)	51.5	54.4
Other	72.5	56.9
	<u>\$ 248.2</u>	<u>\$ 336.6</u>

The components of accumulated other comprehensive loss are as follows:

	December 31, 2009	September 30, 2009
	(in millions)	
Foreign currency translation adjustment	\$ (25.0)	\$ (37.7)
Defined benefit minimum pension liability adjustment, net of tax	(106.9)	(107.8)
Interest rate swap valuation	(0.7)	(1.1)
	<u>\$ (132.6)</u>	<u>\$ (146.6)</u>

The Company elected to terminate its U.S. deferred compensation plan effective in December 2009. As a result of the termination, 6.3 million outstanding stock units and the Company's deferred compensation liability of \$90.8 million as of December 31, 2009 are expected to be settled in December 2010. Accordingly, this liability was reclassified from other long-term liabilities to accrued expenses and other current liabilities in the current period. Additionally, \$62.2 million in investments held in a rabbi trust to fund the deferred compensation liability were reclassified from other non-current assets to other current assets during the quarter ended December 31, 2009. The 6.3 million outstanding stock units can only be settled in common stock of the Company, and as such remain classified in AECOM's stockholder equity as of December 31, 2009.

14. Commitments and Contingencies

The Company records amounts representing its estimated liabilities relating to claims, guarantees, litigation, audits and investigations. The Company relies in part on qualified actuaries to assist it in determining the level of reserves to establish for insurance-related claims that are known and have been asserted against it, and for insurance-related claims that are believed to have been incurred based on actuarial analysis, but have not yet been reported to the Company's claims administrators as of the respective balance sheet dates. The Company includes any adjustments to such insurance reserves in its consolidated results of operations.

The Company is a defendant in various lawsuits arising in the normal course of business. In the opinion of management, the ultimate resolution of these matters will not have a material adverse effect on its consolidated balance sheet or statements of income or cash flows.

In some instances, the Company guarantees that a project, when complete, will achieve specified performance standards. If the project subsequently fails to meet guaranteed performance standards, the Company may either incur significant additional costs or be held responsible for the costs incurred by the client to achieve the required performance standards. At December 31, 2009, the Company was contingently liable in the amount of approximately \$153.8 million under standby letters of credit issued primarily in connection with general and professional liability insurance programs and for payment and performance guarantees.

[Table of Contents](#)

In the ordinary course of business, the Company enters into various agreements providing financial or performance assurances to clients on behalf of certain unconsolidated partnerships, joint ventures and other jointly executed contracts. These agreements are entered into primarily to support the project execution commitments of these entities. The guarantees have various expiration dates. The maximum potential payment amount of an outstanding performance guarantee is the remaining cost of work to be performed by or on behalf of third parties. Generally, under joint venture arrangements, if a partner is financially unable to complete its share of the contract, the other partner(s) will be required to complete those activities. The Company generally only enters into joint venture arrangements with partners who are reputable, financially sound and who carry appropriate levels of surety bonds for the project in order to adequately assure completion of their assignments. The Company does not expect that these guarantees will have a material adverse effect on its consolidated balance sheet or statements of income or cash flows.

15. Reportable Segments

The Company's operations are organized into two reportable segments: Professional Technical Services (PTS) and Management Support Services (MSS). The Company's PTS reportable segment delivers planning, consulting, architectural and engineering design, and program and construction management services to commercial and government clients worldwide. The Company's MSS reportable segment provides program and facilities management and maintenance, training, logistics, consulting, and technical assistance and systems integration services, primarily for agencies of the U.S.

government. These reportable segments are organized by the types of services provided, the differing specialized needs of the respective clients, and how the Company manages its business. The Company has aggregated various operating segments into its PTS reportable segment based on their similar characteristics, including similar long term financial performance, the nature of services provided, internal processes for delivering those services, and types of customers.

Management internally analyzes the results of its operations using several non-GAAP measures. A significant portion of the Company's revenues relates to services provided by subcontractors and other non-employees that it categorizes as other direct costs. Other direct costs are segregated from cost of revenues resulting in revenue, net of other direct costs, which is a measure of work performed by Company employees. The Company has included information on revenue, net of other direct costs, as it believes that it is useful to view our revenue exclusive of costs associated with external service providers.

The following tables set forth summarized financial information concerning the Company's reportable segments:

Reportable Segments:	Professional Technical Services	Management Support Services	Corporate	Total
	(in thousands)			
Three Months Ended December 31, 2009:				
Revenue	\$ 1,204,439	\$ 276,345	\$ —	\$ 1,480,784
Revenue, net of other direct costs (non-GAAP)	883,841	78,485	—	962,326
Gross profit	71,638	11,339	—	82,977
Gross profit as a % of revenue	5.9%	4.1%	—	5.6%
Gross profit as a % of revenue, net of other direct costs (non-GAAP)	8.1%	14.4%	—	8.6%
Equity in earnings of joint ventures	2,272	2,106	—	4,378
General and administrative expenses	—	—	21,865	21,865
Operating income	73,910	13,445	(21,865)	65,490
Three Months Ended December 31, 2008:				
Revenue	\$ 1,229,826	\$ 222,802	\$ —	\$ 1,452,628
Revenue, net of other direct costs (non-GAAP)	847,390	43,200	—	890,590
Gross profit	73,327	7,280	—	80,607
Gross profit as a % of revenue	6.0%	3.3%	—	5.5%
Gross profit as a % of revenue, net of other direct costs (non-GAAP)	8.7%	16.9%	—	9.1%
Equity in earnings of joint ventures	2,977	2,759	—	5,736
General and administrative expenses	—	—	17,246	17,246
Operating income	76,304	10,039	(17,246)	69,097

16. Subsequent Events

The Company has evaluated the period after the balance sheet date up through February 9, 2010, which is the date that the consolidated financial statements were issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the consolidated financial statements.

Item 2. Management's Discussion And Analysis Of Financial Condition And Results Of Operations

Forward-Looking Statements

This Quarterly Report contains certain forward-looking statements, including the plans and objectives of management for our business, operations and economic performance. These forward-looking statements generally can be identified by the context of the statement or the use of forward-looking terminology, such as "believes," "estimates," "anticipates," "intends," "expects," "plans," "is confident that" or words of similar meaning, with reference to us or our management. Similarly, statements that describe our future operating performance, financial results, financial position, plans, objectives, strategies or goals are forward-looking statements. Although management believes that the assumptions underlying the forward-looking statements are reasonable, these assumptions and the forward-looking statements are subject to various factors, risks and uncertainties, many of which are beyond our control, including, but not limited to, our dependence on long-term government contracts, which are subject to uncertainties concerning the government's budgetary approval process, the possibility that our government contracts may be terminated by the government, our ability to successfully manage our joint ventures, the risk of employee misconduct or our failure to comply with laws and regulations, our ability to successfully execute our mergers and acquisitions strategy, including the integration of new companies into our business, our ability to attract and retain key technical and management personnel, our ability to complete our backlog of uncompleted projects as currently projected, our liquidity and capital resources and changes in regulations or legislation that could affect us. Accordingly, actual results could differ materially from those contemplated by any forward-looking statement. In addition to the other risks and uncertainties mentioned in connection with certain forward-looking statements throughout this Quarterly Report, please review "Part II, Item 1A — Risk Factors" in this Quarterly Report for a discussion of the factors, risks and uncertainties that could affect our future results.

Overview

We are a leading global provider of professional technical and management support services for commercial and government clients around the world. We provide our services in a broad range of end markets and strategic geographic markets through a global network of operating offices and approximately 44,000 employees and staff employed in the field on projects.

Our business focuses primarily on providing fee-based professional technical and support services and therefore our business is labor and not capital intensive. We derive income from our ability to generate revenue and collect cash from our clients through the billing of our employees' time spent on client

projects and our ability to manage our costs. We report our business through two segments: Professional Technical Services (PTS) and Management Support Services (MSS).

Our PTS segment delivers planning, consulting, architecture and engineering design, and program and construction management services to institutional, commercial and government clients worldwide in end markets such as the transportation, facilities, environmental and energy markets. PTS revenue is primarily derived from fees from services that we provide, as opposed to pass-through fees from subcontractors and other direct costs.

Our MSS segment provides facilities management and maintenance, training, logistics, consulting, technical assistance and systems integration services, primarily for agencies of the U.S. government. MSS revenue typically includes a significant amount of pass-through fees from subcontractors and other direct costs.

Our revenue is dependent on our ability to attract and retain qualified and productive employees, identify business opportunities, allocate our labor resources to profitable markets, secure new contracts and renew existing client agreements. Moreover, as a professional services company, maintaining the high quality of the work generated by our employees is integral to our revenue generation.

Our costs consist primarily of the compensation we pay to our employees, including salaries, fringe benefits, the costs of hiring subcontractors and other project-related expenses, and sales, general and administrative costs.

Components of Income and Expense

Our management analyzes the results of our operations using several non-GAAP measures. A significant portion of our revenue relates to services provided by subcontractors and other non-employees that we categorize as other direct costs. Those costs are typically paid to service providers upon our receipt of payment from the client. We segregate other direct costs from revenue resulting in a measurement that we refer to as "revenue, net of other direct costs," which is a measure of work performed by AECOM employees. We have included information on revenue, net of other direct costs, as we believe that it is useful to view our revenue exclusive of costs associated with external service providers.

[Table of Contents](#)

The following table presents, for the periods indicated, a presentation of the non-GAAP financial measures reconciled to the closest GAAP measures:

	Three Months Ended December 31,	
	2009	2008
(in millions)		
Other Financial Data:		
Revenue	\$ 1,481	\$ 1,453
Other direct costs	519	562
Revenue, net of other direct costs	962	891
Cost of revenue, net of other direct costs	879	810

Net income	5.2	4.9
Noncontrolling interests in income of consolidated subsidiaries, net of tax	(0.4)	(0.3)
Net income attributable to AECOM	4.8%	4.6%

Revenue

Our revenue for the three months ended December 31, 2009 increased \$28.2 million, or 1.9% from the corresponding period last year. \$54.3 million of our revenue for the three months ended December 31, 2009 was provided by companies acquired in the past twelve months. Excluding the revenue provided by companies acquired in the past twelve months, revenue decreased \$26.1 million, or 1.8%, from the three months ended December 31, 2008.

The decrease in revenue, excluding acquired companies, was primarily attributable to a decrease in demand for our architecture, engineering, and environmental management services in the privately financed facilities market resulting in a decline in revenue of approximately \$120 million. Decreases for these services were partially offset by a \$40 million increase in our MSS segment primarily resulting from increased volume on our Contract Field Teams and Combat Support projects, stronger foreign currencies (primarily the Australian dollar, Canadian dollar and British pound) of approximately \$58 million and increased demand for our engineering and program management services on infrastructure projects in Libya and Hong Kong.

Revenue, Net of Other Direct Costs

Our revenue, net of other direct costs, for the three months ended December 31, 2009 increased \$71.7 million, or 8.1%, to \$962.3 million as compared to \$890.6 million for the corresponding period last year. Of this increase, \$39.2 million, or 54.7%, was provided by companies acquired in the past twelve months. Excluding revenue, net of other direct costs, provided by acquired companies, revenue, net of other direct costs, increased \$32.5 million, or 3.6% over the three months ended December 31, 2008.

The increase in revenue, net of other direct costs, excluding revenue net of other direct costs provided by acquired companies, was primarily due to increased staffing and work performed on our Contracts Field Teams and global maintenance and support services projects along with stronger foreign currencies. These increases were partially offset by decreases in the services noted above.

Gross Profit

Our gross profit for the three months ended December 31, 2009 increased \$2.4 million, or 2.9%, to \$83.0 million as compared to \$80.6 million for the corresponding period last year. \$2.7 million of our gross profit for the three months ended December 31, 2009 was provided by companies acquired in the past twelve months. Excluding gross profit provided by acquired companies, gross profit decreased \$0.3 million, or 0.4%, from the three months ended December 31, 2008. For the three months ended December 31, 2009, gross profit, as a percentage of revenue, net of other direct costs, decreased to 8.6% from 9.1% in the three months ended December 31, 2008.

Excluding acquired companies, the decrease in gross profit, as a percentage of revenue, net of other direct costs, was primarily attributable to \$4.5 million in severance charges.

[Table of Contents](#)

Equity in Earnings of Joint Ventures

Our equity in earnings of joint ventures for the three months ended December 31, 2009 decreased \$1.3 million, or 23.7%, to \$4.4 million as compared to \$5.7 million in the corresponding period last year.

The decrease was primarily attributable to decreased volume in a joint venture providing engineering and design services at an airport in the United Arab Emirates and the acquisition of a controlling interest in a joint venture that was previously accounted for under the equity method.

General and Administrative Expenses

Our general and administrative expenses for the three months ended December 31, 2009 increased \$4.7 million, or 26.8%, to \$21.9 million as compared to \$17.2 million for the corresponding period last year. As a percentage of revenue, net of other direct costs, general and administrative expenses increased from 1.9% in the three months ended December 31, 2008 to 2.3% in the three months ended December 31, 2009.

The increase in general and administrative expenses was primarily attributable to costs associated with increased staffing and other expenses related to the growth in our business and continued investments to support our strategic initiatives, including the launch of our new branding campaign.

Other Income / Expense

Our other income for the three months ended December 31, 2009 was \$1.7 million compared to other expense of \$4.8 million for the three months ended December 31, 2008.

Other income and expense is primarily comprised of net gains and losses on investments we hold to offset our exposure related to employees' investments in a deferred compensation plan.

Interest Income / Expense

Our net interest expense for the three months ended December 31, 2009 was \$1.0 million as compared to \$3.6 million of net interest expense for the three months ended December 31, 2008.

The decrease in net interest expense is primarily due to the reduction of approximately \$200 million of debt from the period ending December 31, 2008. We reduced this debt through cash flows from operations and proceeds from our public offering of common stock in March 2009.

Income Tax Expense

Our income tax expense for the three months ended December 31, 2009 decreased \$1.0 million, or 5.7%, to \$16.5 million as compared to \$17.5 million for the three months ended December 31, 2008. The effective tax rate was 24.9% and 28.8% for the three months ended December 31, 2009 and 2008, respectively.

The decrease in the effective tax rate was primarily attributable to a \$3.2 million reduction in the reserve for uncertain tax positions for the quarter ended December 31, 2009 and is the result of settling the Research & Experimentation Credit portion of the Internal Revenue Service examination of our fiscal years 2006 and 2007 tax returns.

Net Income Attributable to AECOM

The factors described above resulted in net income of \$45.8 million for the three months ended December 31, 2009, as compared to net income of \$40.9 million for the three months ended December 30, 2008.

[Table of Contents](#)

Results of Operations by Reportable Segment:

Professional Technical Services

	Three Months Ended			
	December 31, 2009	December 31, 2008	Change	
			\$	%
	(in thousands)			
Revenue	\$ 1,204,439	\$ 1,229,826	\$ (25,387)	(2.1)%
Other direct costs	320,598	382,436	(61,838)	(16.2)
Revenue, net of other direct costs	883,841	847,390	36,451	4.3
Cost of revenue, net of other direct costs	812,203	774,063	38,140	4.9
Gross profit	\$ 71,638	\$ 73,327	\$ (1,689)	(2.3)%

The following table presents the percentage relationship of certain items to revenue, net of other direct costs:

	Three Months Ended	
	December 31, 2009	December 31, 2008
Revenue, net of other direct costs	100.0%	100.0%
Cost of revenue, net of other direct costs	91.9	91.3
Gross profit	8.1%	8.7%

Revenue

Revenue for our PTS segment for the three months ended December 31, 2009 decreased \$25.4 million, or 2.1%, from the corresponding period last year. Revenue provided by companies acquired in the past twelve months was \$40.5 million. Excluding revenue provided by acquired companies, revenue decreased \$65.9 million, or 5.4%, over the three months ended December 31, 2008.

The decrease in revenue, excluding acquired companies, was primarily attributable to a decrease in demand for our architecture, engineering, and environmental management services in the privately financed facilities market of approximately \$120 million. These decreases were partially offset by

stronger foreign currencies (primarily the Australian dollar, Canadian dollar and British pound) of approximately \$58 million and increased demand for our engineering and program management services on infrastructure projects in Libya and Hong Kong.

Revenue, Net of Other Direct Costs

Revenue, net of other direct costs, for our PTS segment for the three months ended December 31, 2009 increased \$36.4 million, or 4.3%, to \$883.8 million as compared to \$847.4 million for the corresponding period last year. Of this increase, \$29.1 million, or 79.9%, was provided by companies acquired in the past twelve months. Excluding revenue, net of other direct costs, provided by acquired companies, revenue, net of other direct costs, increased \$7.3 million, or 0.9%, over the three months ended December 31, 2008.

The increase in revenue, net of other direct costs, excluding revenue net of other direct costs provided by acquired companies, was primarily due to stronger foreign currencies, partially offset by decreases in the services noted above.

Gross Profit

Gross profit for our PTS segment for the three months ended December 31, 2009 decreased \$1.7 million, or 2.3%, to \$71.6 million as compared to \$73.3 million for the corresponding period last year. Gross profit provided by companies acquired in the past twelve months was \$2.5 million. Excluding gross profit provided by acquired companies, gross profit decreased \$4.2 million, or 5.7%. As a percentage of revenue, net of other direct costs, gross profit decreased to 8.1% of revenue, net of other direct costs, for the three months ended December 31, 2009 from 8.7% in the corresponding period last year.

Excluding acquired companies, the decreases in gross profit and gross profit, as a percentage of revenue, net of other direct costs, were primarily attributable to severance costs of \$4.5 million substantially incurred by our business in the United Kingdom.

[Table of Contents](#)

Management Support Services

	Three Months Ended			
	December 31, 2009	December 31, 2008	Change	
			\$	%
	(in thousands)			
Revenue	\$ 276,345	\$ 222,802	\$ 53,543	24.0%
Other direct costs	197,860	179,602	18,258	10.2
Revenue, net of other direct costs	78,485	43,200	35,285	81.7
Cost of revenue, net of other direct costs	67,146	35,920	31,226	86.9
Gross profit	\$ 11,339	\$ 7,280	\$ 4,059	55.8%

The following table presents the percentage relationship of certain items to revenue, net of other direct costs:

	Three Months Ended	
	December 31, 2009	December 31, 2008
Revenue, net of other direct costs	100.0%	100.0%
Cost of revenue, net of other direct costs	85.6	83.1
Gross profit	14.4%	16.9%

Revenue

Revenue for our MSS segment for the three months ended December 31, 2009 increased \$53.5 million, or 24.0%, to \$276.3 million as compared to \$222.8 million for the corresponding period last year. Of this increase, \$13.8 million, or 25.8%, was provided by companies acquired in the past twelve months. Excluding revenue provided by acquired companies, revenue increased \$39.7 million, or 17.8%, over the three months ended December 31, 2008.

The increase was primarily attributable to new task orders on our Contract Field Teams project with the United States Air Force, and a higher volume of activity on our Combat Support project for the United States Army in the Middle East. Revenue growth from these projects was approximately \$40 million. These increases were partially offset by the completion in the third quarter of fiscal 2009 of a base operations contract at a military facility in the United States.

Revenue, Net of Other Direct Costs

Revenue, net of other direct costs, for our MSS segment for the three months ended December 31, 2009 increased \$35.3 million, or 81.7%, to \$78.5 million as compared to \$43.2 million for the corresponding period last year. Of this increase, \$10.1 million, or 28.6%, was provided by companies acquired in the past twelve months. Excluding revenue, net of other direct costs provided by acquired companies, revenue, net of other direct costs, increased \$25.2 million, or 58.3% over the three months ended December 31, 2008.

The increase was primarily attributable to an increase in our services and personnel resulting from task orders received on our Contract Field Teams project and increased activity for our global maintenance and support services for the United States Army. Revenue, net of other direct costs from these projects increased approximately \$30 million. These increases were partially offset by the completion of the base operations project noted above.

The higher percentage growth in revenue, net of other direct costs as compared to revenue was the result of the increase in task orders on the Contract Field Teams project which has a significantly greater portion of work directly performed by us as compared to other projects in the MSS segment.

Gross Profit

Gross profit for our MSS segment for the three months ended December 31, 2009 increased \$4.0 million, or 55.8%, to \$11.3 million as compared to \$7.3 million for the corresponding period last year. Of this increase, \$0.2 million, or 5.0%, was provided by companies acquired in the past twelve months. Excluding gross profit provided by acquired companies, gross profit increased \$3.8 million, or 52.1%, consistent with the increase in revenue, net of other direct costs. As a percentage of revenue, net of other direct costs, gross profit decreased to 14.4% in the three months ended December 31, 2009 from 16.9% in the corresponding period last year.

The decrease in gross profit, as a percentage of revenue, net of other direct costs was primarily due to the growth in revenue, net of other direct costs for the Contract Field Teams project noted above, which has a lower margin than other MSS projects. This decrease was partially offset by margin improvement on our Taji National Depot project for the United States Army.

[Table of Contents](#)

Seasonality

We experience seasonal trends in our business. The first quarter of our fiscal year (October 1 to December 31) is typically our weakest quarter. The harsher weather conditions impact our ability to complete work in parts of North America and the holiday season schedule affects our productivity during this period. For these reasons, coupled with the number and significance of client contracts commenced and completed during a particular period, as well as the timing of expenses incurred for corporate initiatives, it is not unusual for us to experience seasonal changes or fluctuations in our quarterly operating results. Our revenue is typically higher in the last half of the fiscal year. Many U.S. state governments with fiscal years ending on June 30 tend to accelerate spending during their first quarter, when new funding becomes available. In addition, we find that the U.S. federal government tends to authorize more work during the period preceding the end of our fiscal year, September 30. Further, our construction management revenue typically increases during the high construction season of the summer months. Within the United States, as well as other parts of the world, our business generally benefits from milder weather conditions in our fiscal fourth quarter, which allows for more productivity from our on-site civil services. For these reasons, coupled with the number and significance of client contracts commenced and completed during a period, as well as the time of expenses incurred for corporate initiatives, it is not unusual for us to experience seasonal changes or fluctuations in our quarterly operating results.

Liquidity and Capital Resources

Cash Flows

Our principal sources of liquidity are cash flows from operations and access to financial markets. Our principal uses of cash are operating expenses, capital expenditures, working capital requirements, acquisitions, and repayment of debt. We believe our anticipated sources of liquidity including operating cash flows, existing cash and cash equivalents, borrowing capacity under our revolving credit facility and our ability to issue debt or equity, if required, will be sufficient to meet our projected cash requirements for at least the next 12 months.

At December 31, 2009, cash and cash equivalents were \$252.9 million, a decrease of \$37.9 million, or 13.0%, from \$290.8 million at September 30, 2009. This decrease was primarily attributable to cash used by operating activities and payments for business acquisitions, offset by proceeds from the disposal of a business.

Net cash used in operating activities was \$34.6 million for the three months ended December 31, 2009, an increase of \$26.9 million, or 349%, from \$7.7 million for the three months ended December 31, 2008. This increase in cash used was primarily attributable to the timing of payments of accounts payable.

Net cash used in investing activities was \$23.6 million for the three months ended December 31, 2009, compared with \$56.9 million of net cash provided by investing activities for the three months ended December 31, 2008. This change was primarily due to proceeds from the sales of investment securities of \$81.4 million during the three months ended December 31, 2008.

Net cash provided by financing activities was \$17.6 million for the three months ended December 31, 2009, compared with \$10.1 million in the comparable period last year. This increase was primarily attributable to the increase in borrowings under credit agreements related to bank overdrafts.

Working Capital

Working capital, or current assets less current liabilities, increased \$1.3 million, or 0.2%, to \$659.1 million at December 31, 2009 from \$657.8 million at September 30, 2009. Net accounts receivable, which includes billed and unbilled costs and fees, net of billings in excess of costs on uncompleted contracts, increased \$23.6 million, or 1.7%, to \$1.4 billion at December 31, 2009, primarily attributable to the timing of collections of accounts receivable.

Accounts receivable increased 3.5%, or \$61.3 million, from September 30, 2009 to December 31, 2009 primarily due to timing of collections.

Days Sales Outstanding (DSO), including accounts receivable, net of billings in excess of costs on uncompleted contracts, at December 31, 2009, was 87 days compared to the 78 days at September 30, 2009.

In Note 7 to the consolidated financial statements, Accounts Receivable—Net, the Company provides a comparative analysis of the various components of accounts receivable. Substantially all unbilled receivables as of December 31, 2009 and September 30, 2009 are expected to be billed and collected within twelve months of such date.

[Table of Contents](#)

The Company records unbilled receivables related to claims only if it is probable that the claim will result in additional contract revenue and if the amount can be reliably estimated. In such cases, the Company records revenue only to the extent that contract costs relating to the claim have been incurred. As of December 31, 2009 and September 30, 2009, the Company had no significant net receivables related to contract claims. The Company accrues award

fees in unbilled receivables only when there is sufficient information to assess contract performance. On contracts that represent higher than normal risk or technical difficulty, the Company may defer all award fees until an award fee letter is received.

Because our revenue depends to a great extent on billable labor hours, most of our charges are invoiced following the end of the month in which the hours were worked, the majority usually within 15 days. Other direct costs are normally billed along with labor hours. However, as opposed to salary costs, which are generally paid on either a bi-weekly or monthly basis, other direct costs are generally not paid until we receive payment (in some cases in the form of advances) from our customers.

Borrowings and Lines of Credit

Debt consisted of the following:

	December 31, 2009	September 30, 2009
	(in thousands)	
Unsecured revolving credit facility	\$ 100,000	\$ 100,000
Unsecured term credit agreement	19,484	21,196
Secured notes	26,436	26,633
Other debt	40,839	23,380
Total debt	186,759	171,209
Less: Current portion of debt and short-term borrowings	(46,734)	(29,107)
Long-term debt, less current portion	\$ 140,025	\$ 142,102

Unsecured Revolving Credit Facility

We have an unsecured revolving credit facility with a syndicate of banks to support our working capital and acquisition needs. The borrowing capacity under our unsecured revolving credit facility is \$600 million, and pursuant to the terms of the associated credit agreement, has an expiration date of August 31, 2012. We may also, at our option, request an increase in the commitments under the facility up to a total of \$750 million, subject to lender approval. The credit agreement contains customary representations and warranties, affirmative and negative covenants and events of default and includes a sub-limit for financial and commercial standby letters of credit. We may borrow, at our option, at either (a) a base rate (the greater of the federal funds rate plus 0.50% or the bank's reference rate), or (b) an offshore, or LIBOR, rate plus a margin which ranges from 0.50% to 1.38%. In addition to these borrowing rates, there is a commitment fee which ranges from 0.10% to 0.25% on any unused commitment. At December 31, 2009 and September 30, 2009, \$100.0 million was outstanding under our credit facility. At December 31, 2009 and September 30, 2009, outstanding standby letters of credit totaled \$30.0 million and \$29.9 million, respectively, under our credit facility. At December 31, 2009, we had \$470.0 million available for borrowing under our credit facility. Our debt agreements contain certain negative covenants relating to the Company's net worth and leverage, based on outstanding borrowings (including financial letters of credit) and earnings before interest, taxes, depreciation, and amortization. At December 31, 2009, the Company was in compliance with these covenants. Additionally, we could have drawn upon the remaining \$470.0 million available under our credit facility.

Our interest rate swap agreements with financial institutions fix the variable interest rates of \$100.0 million of the outstanding debt under our revolving credit facility. We applied cash flow hedge accounting to the interest rate swap agreements in accordance with ASC 815-20, "Accounting for Derivative Instruments and Hedging Activities." Accordingly, the derivatives are recorded as assets or liabilities at fair value and the effective portion of changes in the fair value of the derivative, as measured quarterly, are reported in other comprehensive income. The change in fair value related to the derivatives included in other comprehensive income/(loss) for the three months ended December 31, 2009 and September 30, 2009 was \$0.4 million and \$(3.4) million, respectively. Based on the swaps' expiration dates, the total \$(0.7) million recorded in accumulated other comprehensive income at December 31, 2009 will be recorded as interest expense over the next twelve months. The fixed rates and the related expiration dates of the outstanding swap agreements are as follows:

	Notional Amount (in thousands)	Fixed Rate	Expiration Date
\$	50,000	3.0%	February 2010
\$	50,000	3.2%	August 2010

[Table of Contents](#)

Our average effective interest rate on borrowings under our revolving credit facility, including the effects of the swaps, during the three months ended December 31, 2009 and September 30, 2009 was 3.6% and 3.1%, respectively.

Unsecured Term Credit Agreement

In September 2006, through certain wholly-owned subsidiaries, we entered into an unsecured term credit agreement with a syndicate of banks to facilitate dividend repatriations under Section 965 of the American Jobs Creation Act of 2004, which provided for a limited time, the opportunity to repatriate non-U.S. earnings to the U.S. at a 5.25% tax rate. The term credit agreement provides for a \$65.0 million, five-year term loan among four subsidiary borrowers and one subsidiary guarantor. In order to obtain favorable pricing, we also provided a parent company guarantee. The terms and conditions of the term credit agreement are similar to those contained in our revolving credit facility.

Secured Notes

Secured notes are notes payable to a bank, collateralized by real properties, which we assumed in connection with a business acquired during the year ended September 30, 2008. These notes payable bear interest at 6.04% per annum and mature in December 2028.

Other Debt

Other debt consists primarily of bank overdrafts. In addition to the revolving credit facility discussed above, at December 31, 2009, we had \$178.2 million of unsecured credit facilities primarily used to cover periodic overdrafts and letters of credit, of which, \$123.8 million was utilized for outstanding letters of credit.

Commitments and Contingencies

Other than normal property and equipment additions and replacements, expenditures to further the implementation of our Enterprise Resource Planning (ERP) system, commitments under our incentive compensation programs, repurchases of shares of our common stock, and acquisitions from time to time, we currently do not have any significant capital expenditures or outlays planned except as described below. However, as we acquire additional businesses in the future or if we embark on other capital-intensive initiatives, additional working capital may be required.

Under our unsecured revolving credit facility and other facilities discussed in Other Debt above, as of December 31, 2009, there was approximately \$153.8 million outstanding under standby letters of credit issued primarily in connection with general and professional liability insurance programs and for contract performance guarantees. In addition, in some instances we guarantee that a project, when complete, will achieve specified performance standards. If the project subsequently fails to meet guaranteed performance standards, we may either incur significant additional costs or be held responsible for the costs incurred by the client to achieve the required performance standards.

We recognized on our balance sheet the funded status (measured as the difference between the fair value of plan assets and the projected benefit obligation) of the Company's pension plans. The total amounts of employer contributions paid for the three months ended December 31, 2009 were \$3.2 million for U.S. plans and \$3.9 million for non-U.S. plans. The expected remaining scheduled annual employer contributions for the fiscal year ending September 30, 2010 are \$2.1 million for U.S. plans and \$13.5 million for non-U.S. plans. We do not have a required minimum contribution for our domestic plans; however, we may make additional discretionary contributions. In the future, such pension funding may increase or decrease depending on changes in the levels of interest rates, pension plan performance and other factors.

Recently Issued Accounting Pronouncements

In October 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2009-13 "*Multiple-Deliverable Revenue Arrangements—a consensus of the FASB Emerging Issues Task Force*" (ASU 2009-13) which updates ASC Topic 605, "*Revenue Recognition*." ASU 2009-13 provides another alternative for determining the selling price of deliverables and will allow companies to allocate arrangement consideration in multiple deliverable arrangements in a manner that better reflects the transaction's economics and could result in earlier revenue recognition. ASU 2009-13 is effective for the Company prospectively for revenue arrangements entered into or materially modified on or after October 1, 2010; however, early adoption is permitted. We are currently evaluating the impact of adopting ASU 2009-13 on our financial statements.

[Table of Contents](#)

In June 2009, the FASB issued ASC 810-10-05, "*Amendments to FASB Interpretation No. 46(R)*" (ASC 810-05). ASC 810-05 amends FIN 46(R) and requires a company to perform an analysis to determine whether its variable interests give it a controlling financial interest in a variable interest entity. This analysis requires a company to assess whether it has the power to direct the activities of the variable interest entity and if it has the obligation to absorb losses or the right to receive benefits that could potentially be significant to the variable interest entity. ASC 810-05 requires an ongoing reassessment of whether a company is the primary beneficiary of a variable interest entity, eliminates the quantitative approach previously required for determining the primary beneficiary of a variable interest entity and significantly enhances disclosures. ASC 810-05 may be applied retrospectively in previously issued financial statements with a cumulative-effect adjustment to retained earnings as of the beginning of the first year restated. ASC 810-05 is effective for the Company in our fiscal year ending September 30, 2011. We are currently evaluating the impact that the adoption of ASC 810-05 will have on our financial statements.

In December 2008, the FASB issued ASC 715-20-65, "*Employers' Disclosures about Postretirement Benefit Plan Assets*" (ASC 715-20-65). ASC 715-20-65 amends SFAS No. 132, "*Employers' Disclosures about Pensions and Other Postretirement Benefits*," to provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. The additional disclosure requirements include expanded disclosure about an entity's investment policies and strategies, the categories of plan assets, concentrations of credit risk and fair value measurements of plan assets. The standard is effective for the Company in our fiscal year ending September 30, 2010. We will amend our disclosures accordingly beginning with the financial statements included in our fiscal year 2010 Form 10-K.

Off-Balance Sheet Arrangements

We enter into various joint venture arrangements to provide architectural, engineering, program management, construction management and operations and maintenance services. The ownership percentage of these joint ventures is typically representative of the work to be performed or the amount of risk assumed by each joint venture partner. Some of these joint ventures are considered variable interest entities under ASC 810-10, "*Consolidation of Variable Interest Entities*" (FIN 46R). We have consolidated all joint ventures for which we are the primary beneficiary. For all others, the Company's portion of the earnings is recorded in equity in earnings of joint ventures. See Note 9 to the consolidated financial statements in our 2009 Form 10-K. We do not believe that we have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that would be material to investors.

[Table of Contents](#)

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Financial Market Risks

We are exposed to market risk, primarily related to foreign currency exchange rates and interest rate exposure of our debt obligations that bear interest based on floating rates. We actively monitor these exposures. Our objective is to reduce, where we deem appropriate to do so, fluctuations in earnings and cash flows associated with changes in foreign exchange rates and interest rates. In the past, we have entered into derivative financial instruments, such as forward contracts and interest rate hedge contracts. It is our policy and practice to use derivative financial instruments only to the extent necessary to manage our exposures. We do not use derivative financial instruments for trading purposes.

Foreign Exchange Rates

We are exposed to foreign currency exchange rate risk resulting from our operations outside of the U.S. We do not comprehensively hedge our exposure to currency rate changes; however, our exposure to foreign currency fluctuations is limited in that most of our contracts require client payments to be in currencies corresponding to the currency in which costs are incurred. As a result, we typically do not need to hedge foreign currency cash flows for contract work performed. The functional currency of our significant foreign operations is the local currency.

Interest Rates

Our senior revolving credit facility and certain other debt obligations are subject to variable rate interest which could be adversely affected by an increase in interest rates. As of December 31, 2009 and September 30, 2009, we had \$119.5 and \$121.2 million, respectively, outstanding borrowings under our senior revolving credit facility and our term credit agreement. Interest on amounts borrowed under our senior revolving credit facility and our term credit agreement is subject to adjustment based on certain levels of financial performance. For borrowings at offshore rates, the applicable margin added can range from 0.50% to 1.38%. For the three months ended December 31, 2009, our weighted average borrowings on our senior credit facility were \$101.3 million. If short term floating interest rates were to increase or decrease by 1%, our annual interest expense could have increased or decreased by \$1.0 million. We invest our cash in a variety of financial instruments, consisting principally of money market securities or other highly liquid, short-term securities that are subject to minimal credit and market risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of our management, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act"), were effective as of December 31, 2009 to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during our quarter ended December 31, 2009 which were identified in connection with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

[Table of Contents](#)

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

As a government contractor, we are subject to various laws and regulations that are more restrictive than those applicable to non-government contractors. Intense government scrutiny of contractors' compliance with those laws and regulations through audits and investigations is inherent in government contracting, and, from time to time, we receive inquiries, subpoenas, and similar demands related to our ongoing business with government entities. Violations can result in civil or criminal liability as well as suspension or debarment from eligibility for awards of new government contracts or option renewals.

We are involved in various investigations, claims and lawsuits in the normal conduct of our business, none of which, in the opinion of our management, based upon current information and discussions with counsel, is expected to have a material adverse effect on our consolidated financial position, results of operations, cash flows or our ability to conduct business. From time to time, we establish reserves for litigation when we consider it probable that a loss will occur.

Item 1A. Risk Factors

The Company operates in a changing environment that involves numerous known and unknown risks and uncertainties that could materially adversely affect our operations. The risks described below highlight some of the factors that have affected, and in the future could affect our operations. Additional risks we do not yet know of or that we currently think are immaterial may also affect our business operations. If any of the events or circumstances described in the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected.

We depend on long-term government contracts, some of which are only funded on an annual basis. If appropriations for funding are not made in subsequent years of a multiple-year contract, we may not be able to realize all of our anticipated revenue and profits from that project.

A substantial majority of our revenue is derived from contracts with agencies and departments of national, state and local governments. During fiscal years 2009, 2008 and 2007, approximately 71%, 64% and 61%, respectively, of our revenue was derived from contracts with government entities.

Most government contracts are subject to the government's budgetary approval process. Legislatures typically appropriate funds for a given program on a year-by-year basis, even though contract performance may take more than one year. As a result, at the beginning of a program, the related contract is only partially funded, and additional funding is normally committed only as appropriations are made in each subsequent fiscal year. These appropriations, and the timing of payment of appropriated amounts, may be influenced by, among other things, the state of the economy, competing priorities for appropriation, changes in administration or control of legislatures and the timing and amount of tax receipts and the overall level of government expenditures. If appropriations are not made in subsequent years on our government contracts, then we will not realize all of our potential revenue and profit from that contract.

For instance, a significant portion of historical funding for state and local transportation projects has come from the U.S. federal government through its “SAFETEA-LU” infrastructure funding program and predecessor programs. This \$286 billion program covers federal fiscal years 2004-2009. Approximately 79% of the SAFETEA-LU funding is for highway programs, 18.5% is for transit programs and 2.5% is for other programs such as motor carrier safety, national highway traffic safety and research. A key uncertainty in the outlook for federal transportation funding in the United States is the future viability of the Highway Trust Fund, which has experienced shortfalls due to a decrease in the federal gas tax receipts that fund it. In September 2008, the President signed HR 6532, a bill to amend the Internal Revenue Code to restore the Highway Trust Fund balance, transferring funds from the general Treasury to the Highway Trust Fund to provide for the funding of authorized federal transportation priorities through the end of fiscal year 2009. This raises concerns about the future funding structure for federal highway programs, including the Highway Trust Fund, particularly after SAFETEA-LU expires on February 28, 2010.

Governmental agencies may modify, curtail or terminate our contracts at any time prior to their completion and, if we do not replace them, we may suffer a decline in revenue.

Most government contracts may be modified, curtailed or terminated by the government either at its convenience or upon the default of the contractor. If the government terminates a contract at its convenience, then we typically are able to recover only costs incurred or committed, settlement expenses and profit on work completed prior to termination, which could prevent us from recognizing all of our potential revenue and profits from that contract. If the government terminates the contract due to our default, we could be liable for excess costs incurred by the government in obtaining services from another source.

[Table of Contents](#)

Demand for our services is cyclical and may be vulnerable to sudden economic downturns and reductions in government and private industry spending. If the economy remains depressed or further weakens, our revenue and profitability could be adversely affected.

Demand for our services is cyclical and may be vulnerable to sudden economic downturns and reductions in government and private industry spending, which may result in clients delaying, curtailing or canceling proposed and existing projects. Due to the economic downturn in the U.S. and international markets and severe tightening of the global credit markets, some of our clients may face considerable budget shortfalls that may limit their overall demand for our services. In addition, our clients may find it more difficult to raise capital in the future to fund their projects due to uncertainty in the municipal and general credit markets. Also, the global demand for commodities has increased raw material costs, which will cause our clients’ projects to increase in overall cost and may result in the more rapid depletion of the funds that are available to our clients to spend on projects.

Because of an overall weakening economy, our clients may demand more favorable pricing or other terms while their ability to pay our invoices or to pay them in a timely manner may be adversely affected. Our government clients may face budget deficits that prohibit them from funding proposed and existing projects. If the economy remains depressed or further weakens and/or government spending is reduced, our revenue and profitability could be adversely affected.

Our contracts with governmental agencies are subject to audit, which could result in adjustments to reimbursable contract costs or, if we are charged with wrongdoing, possible temporary or permanent suspension from participating in government programs.

Our books and records are subject to audit by the various governmental agencies we serve and their representatives. These audits can result in adjustments to the amount of contract costs we believe are reimbursable by the agencies and the amount of our overhead costs allocated to the agencies. In addition, if one of our subsidiaries is charged with wrongdoing as a result of an audit, that subsidiary, and possibly our company as a whole, could be temporarily suspended or could be prohibited from bidding on and receiving future government contracts for a period of time. Furthermore, as a large government contractor, we are subject to an increased risk of investigations, criminal prosecution, civil fraud, whistleblower lawsuits and other legal actions and liabilities to which purely private sector companies are not, the results of which could adversely impact our business.

A delay in the completion of the budget process of government agencies could delay procurement of our services and have an adverse effect on our future revenue.

In years when the U.S. government does not complete its budget process before the end of its fiscal year on September 30, government operations are typically funded pursuant to a “continuing resolution” that authorizes agencies of the U.S. government to continue to operate, but does not authorize new spending initiatives. When the U.S. government operates under a continuing resolution, government agencies may delay the procurement of services, which could reduce our future revenue. Delays in the budgetary processes of states or other jurisdictions may similarly have adverse effects on our future revenue.

Our business and operating results could be adversely affected by losses under fixed-price contracts.

Fixed-price contracts require us to either perform all work under the contract for a specified lump-sum or to perform an estimated number of units of work at an agreed price per unit, with the total payment determined by the actual number of units performed. In fiscal year 2009, approximately 38% of our revenue was recognized under fixed-price contracts. Fixed-price contracts are more frequently used outside of the United States and, thus, the exposures resulting from fixed-price contracts may increase as we increase our business operations outside of the United States. Fixed-price contracts expose us to a number of risks not inherent in cost-plus and time and material contracts, including underestimation of costs, ambiguities in specifications, unforeseen costs or difficulties, problems with new technologies, delays beyond our control, failures of subcontractors to perform and economic or other changes that may occur during the contract period. Losses under fixed-price contracts could be substantial and adversely impact our results of operations.

We conduct a portion of our operations through joint venture entities, over which we may have limited control.

Approximately 20% of our fiscal year 2009 revenue was derived from our operations through joint ventures or similar partnership arrangements, where control may be shared with unaffiliated third parties. As with most joint venture arrangements, differences in views among the joint venture participants may result in delayed decisions or disputes. We also cannot control the actions of our joint venture partners, and we typically have joint and several liability with our joint venture partners under the applicable contracts for joint venture projects. These factors could potentially adversely impact the business and operations of a joint venture and, in turn, our business and operations.

Operating through joint ventures in which we are minority holders results in us having limited control over many decisions made with respect to projects and internal controls relating to projects. Of the joint ventures noted above, approximately 8% of our fiscal year 2009 revenue was derived from our unconsolidated joint ventures where we generally do not have control of the joint venture. These joint ventures may not be subject to the same requirements regarding internal controls and internal control over financial reporting that we follow. As a result, internal control problems may arise with respect to these joint ventures, which could have a material adverse effect on our financial condition and results of operations.

Misconduct by our employees or consultants or our failure to comply with laws or regulations applicable to our business could cause us to lose customers or lose our ability to contract with government agencies.

As a government contractor, misconduct, fraud or other improper activities caused by our employees' or consultants' failure to comply with laws or regulations could have a significant negative impact on our business and reputation. Such misconduct could include the failure to comply with federal procurement regulations, regulations regarding the protection of classified information, legislation regarding the pricing of labor and other costs in government contracts, regulations on lobbying or similar activities, and anti-corruption, export control and other applicable laws or regulations. Our failure to comply with applicable laws or regulations, misconduct by any of our employees or consultants or our failure to make timely and accurate certifications to government agencies regarding misconduct or potential misconduct could subject us to fines and penalties, loss of security clearance, cancellation of contracts and suspension or debarment from contracting with government agencies, any of which may adversely affect our business.

Our defined benefit plans have significant deficits that could grow in the future and cause us to incur additional costs.

We have defined benefit pension plans for employees in the United States, United Kingdom, Australia, Ireland, Canada and Philippines. At December 31, 2009, our defined benefit pension plans had an aggregate deficit (the excess of projected benefit obligations over the fair value of plan assets) of approximately \$124.2 million. In the future, our pension deficits may increase or decrease depending on changes in the levels of interest rates, pension plan performance and other factors. Because the current economic environment has resulted in declining investment returns and interest rates, we may be required to make additional cash contributions to our pension plans and recognize further increases in our net pension cost to satisfy our funding requirements. If we are forced or elect to make up all or a portion of the deficit for unfunded benefit plans, our results of operations could be materially and adversely affected.

Our operations worldwide expose us to legal, political and economic risks in different countries as well as currency exchange rate fluctuations that could harm our business and financial results.

During fiscal year 2009, revenue attributable to our services provided outside of the United States was approximately 54% of our total revenue. There are risks inherent in doing business internationally, including:

- imposition of governmental controls and changes in laws, regulations or policies;
- political and economic instability;
- civil unrest, acts of terrorism, force majeure, war, or other armed conflict;
- changes in U.S. and other national government trade policies affecting the markets for our services;
- changes in regulatory practices, tariffs and taxes;
- potential non-compliance with a wide variety of laws and regulations, including anti-corruption, export control and anti-boycott laws and similar non-U.S. laws and regulations;
- changes in labor conditions;
- logistical and communication challenges; and
- currency exchange rate fluctuations, devaluations and other conversion restrictions.

Any of these factors could have a material adverse effect on our business, results of operations or financial condition.

We operate in many different jurisdictions and we could be adversely affected by violations of the U.S. Foreign Corrupt Practices Act and similar worldwide anti-corruption laws.

The U.S. Foreign Corrupt Practices Act (FCPA) and similar worldwide anti-corruption laws generally prohibit companies and their intermediaries from making improper payments to non-U.S. officials for the purpose of obtaining or retaining business. Our internal policies mandate compliance with these anti-corruption laws. We operate in many parts of the world that have experienced governmental corruption to some degree, and in certain circumstances, strict compliance with anti-corruption laws may conflict with local customs and practices. Despite our training and compliance programs, we cannot assure you that our internal control policies

and procedures always will protect us from reckless or criminal acts committed by our employees or agents. Our continued expansion outside the U.S., including in developing countries, could increase the risk of such violations in the future. Violations of these laws, or allegations of such violations, could disrupt our business and result in a material adverse effect on our results of operations or financial condition.

We work in international locations where there are high security risks, which could result in harm to our employees and contractors or material costs to us.

Some of our services are performed in high-risk locations, such as Iraq and Afghanistan, where the country or location is suffering from political, social or economic problems, or war or civil unrest. In those locations where we have employees or operations, we may incur material costs to maintain the safety of our personnel. Despite these precautions, the safety of our personnel in these locations may continue to be at risk. Acts of terrorism and threats of armed conflicts in or around various areas in which we operate could limit or disrupt markets and our operations, including disruptions resulting from the evacuation of personnel, cancellation of contracts, or the loss of key employees and contractors or assets.

Failure to successfully execute our acquisition strategy may inhibit our growth.

We have grown in part as a result of our acquisitions over the last several years, and we expect continued growth in the form of additional acquisitions and expansion into new markets. If we are unable to pursue suitable acquisition opportunities, as a result of global economic uncertainty or other factors, our growth may be inhibited. We cannot assure you that suitable acquisitions or investment opportunities will continue to be identified or that any of these transactions can be consummated on favorable terms or at all. Any future acquisitions will involve various inherent risks, such as:

- our ability to accurately assess the value, strengths, weaknesses, liabilities and potential profitability of acquisition candidates;
- the potential loss of key personnel of an acquired business;
- increased burdens on our staff and on our administrative, internal control and operating systems, which may hinder our legal and regulatory compliance activities;
- post-acquisition integration challenges; and
- post-acquisition deterioration in an acquired business that could result in lower or negative earnings contribution and/or goodwill impairment charges.

Furthermore, during the acquisition process and thereafter, our management may need to assume significant transaction-related responsibilities, which may cause them to divert their attention from our existing operations. If our management is unable to successfully integrate acquired companies or implement our growth strategy, our operating results could be harmed. Moreover, we cannot assure you that we will continue to successfully expand or that growth or expansion will result in profitability.

Our ability to grow and to compete in our industry will be harmed if we do not retain the continued services of our key technical and management personnel and identify, hire and retain additional qualified personnel.

There is strong competition for qualified technical and management personnel in the sectors in which we compete. We may not be able to continue to attract and retain qualified technical and management personnel, such as engineers, architects and project managers, who are necessary for the development of our business or to replace qualified personnel. Our planned growth may place increased demands on our resources and will likely require the addition of technical and management personnel and the development of additional expertise by existing personnel. Also, some of our personnel hold security clearances required to obtain government projects; if we were to lose some or all of these personnel, they would be difficult to replace. Loss of the services of, or failure to recruit, key technical and management personnel could limit our ability to successfully complete existing projects and compete for new projects.

Our revenue and growth prospects may be harmed if we or our employees are unable to obtain the security clearances or other qualifications we and they need to perform services for our customers.

A number of government programs require contractors to have security clearances. Depending on the level of required clearance, security clearances can be difficult and time-consuming to obtain. If we or our employees are unable to obtain or retain necessary security clearances, we may not be able to win new business, and our existing customers could terminate their contracts with us or decide not to renew them. To the extent we cannot obtain or maintain the required security clearances for our employees working on a particular contract, we may not derive the revenue or profit anticipated from such contract.

[Table of Contents](#)

Our industry is highly competitive and we may be unable to compete effectively, which could result in reduced revenue, profitability and market share.

We are engaged in a highly competitive business. The extent of competition varies with the types of services provided and the locations of the projects. Generally, we compete on the bases of technical and management capability, personnel qualifications and availability, geographic presence, experience and price. Increased competition may result in our inability to win bids for future projects and loss of revenue, profitability and market share.

If we extend a significant portion of our credit to clients in a specific geographic area or industry, we may experience disproportionately high levels of default if those clients are adversely affected by factors particular to their geographic area or industry.

Our clients include public and private entities that have been, and may continue to be, negatively impacted by the changing landscape in the global economy. While outside of the U.S. federal government no one client accounts for over 10% of our revenue, we face collection risk as a normal part of our business where we perform services and subsequently bill our clients for such services. In the event that we have concentrated credit risk from clients in a specific geographic area or industry, continuing negative trends or a worsening in the financial condition of that specific geographic area or industry could make us susceptible to disproportionately high levels of default by those clients. Such defaults could materially adversely impact our revenues and our results of operations.

Our services expose us to significant risks of liability and our insurance policies may not provide adequate coverage.

Our services involve significant risks of professional and other liabilities that may substantially exceed the fees that we derive from our services. In addition, we sometimes contractually assume liability under indemnification agreements. We cannot predict the magnitude of potential liabilities from the

operation of our business.

Our professional liability policies cover only claims made during the term of the policy. Additionally, our insurance policies may not protect us against potential liability due to various exclusions in the policies and self-insured retention amounts. Partially or completely uninsured claims, if successful and of significant magnitude, could have a material adverse affect on our business.

Our backlog of uncompleted projects under contract is subject to unexpected adjustments and cancellations and thus, may not accurately reflect future revenue and profits.

At December 31, 2009, our contracted backlog was approximately \$6.0 billion and our awarded backlog was approximately \$4.0 billion for a total backlog of \$10.0 billion. Our contracted backlog includes revenue we expect to record in the future from signed contracts, and in the case of a public sector client, where the project has been funded. Our awarded backlog includes revenue we expect to record in the future where we have been awarded the work, but the contractual agreement has not yet been signed. We cannot guarantee that future revenue will be realized from either category of backlog or, if realized, will result in profits. Many projects may remain in our backlog for an extended period of time because of the size or long-term nature of the contract. In addition, from time to time projects are delayed, scaled back or cancelled. These types of backlog reductions adversely affect the revenue and profits that we ultimately receive from contracts reflected in our backlog.

We have submitted claims to clients for work we performed beyond the initial scope of some of our contracts. If these clients do not approve these claims, our results of operations could be adversely impacted.

We typically have pending claims submitted under some of our contracts for payment of work performed beyond the initial contractual requirements for which we have already recorded revenue. In general, we cannot guarantee that such claims will be approved in whole, in part, or at all. If these claims are not approved, our revenue may be reduced in future periods.

In conducting our business, we depend on other contractors and subcontractors. If these parties fail to satisfy their obligations to us or other parties, or if we are unable to maintain these relationships, our revenue, profitability and growth prospects could be adversely affected.

We depend on contractors and subcontractors in conducting our business. There is a risk that we may have disputes with our subcontractors arising from, among other things, the quality and timeliness of work performed by the subcontractor, customer concerns about the subcontractor, or our failure to extend existing task orders or issue new task orders under a subcontract. In addition, if any of our subcontractors fail to deliver on a timely basis the agreed-upon supplies and/or perform the agreed-upon services, our ability to fulfill our obligations as a prime contractor may be jeopardized and/or we could be held responsible for such failures.

[Table of Contents](#)

We also rely on relationships with other contractors when we act as their subcontractor or joint venture partner. Our future revenue and growth prospects could be adversely affected if other contractors eliminate or reduce their subcontracts or joint venture relationships with us, or if a government agency terminates or reduces these other contractors' programs, does not award them new contracts or refuses to pay under a contract. In addition, due to "pay when paid" provisions that are common in subcontracts in certain countries, including the U.S., we could experience delays in receiving payment if the prime contractor experiences payment delays.

Our quarterly operating results may fluctuate significantly.

Our quarterly revenue, expenses and operating results may fluctuate significantly because of a number of factors, including:

- the spending cycle of our public sector clients;
- employee hiring and utilization rates;
- the number and significance of client engagements commenced and completed during a quarter;
- the ability of clients to terminate engagements without penalties;
- the ability of our project managers to accurately estimate the percentage of the project completed;
- delays incurred as a result of weather conditions;
- delays incurred in connection with an engagement;
- the size and scope of engagements;
- the timing and magnitude of expenses incurred for, or savings realized from, corporate initiatives;
- changes in foreign currency rates;
- the seasonality of our business;
- the impairment of goodwill or other intangible assets; and
- general economic and political conditions.

Variations in any of these factors could cause significant fluctuations in our operating results from quarter to quarter.

Systems and information technology interruption could adversely impact our ability to operate.

We rely heavily on computer, information and communications technology and related systems in order to properly operate. From time to time, we experience occasional system interruptions and delays. If we are unable to continually add software and hardware, effectively upgrade our systems and network infrastructure and take other steps to improve the efficiency of and protect our systems, systems operation could be interrupted or delayed. In addition, our computer and communications systems and operations could be damaged or interrupted by natural disasters, telecommunications failures, acts of war or terrorism, computer viruses, physical or electronic security breaches and similar events or disruptions. Any of these or other events could cause system interruption, delays and loss of critical data, or delay or prevent operations, and adversely affect our operating results.

Failure to adequately protect, maintain, or enforce our rights in our intellectual property may adversely limit our competitive position.

Our success depends, in part, upon our ability to protect our intellectual property. We rely on a combination of intellectual property policies and other contractual arrangements to protect much of our intellectual property where we do not believe that trademark, patent or copyright protection is appropriate or obtainable. Trade secrets are generally difficult to protect. Although our employees are subject to confidentiality obligations, this protection may be inadequate to deter or prevent misappropriation of our confidential information and/or the infringement of our patents and copyrights. Further, we may be unable to detect unauthorized use of our intellectual property or otherwise take appropriate steps to enforce our rights. Failure to adequately protect, maintain, or enforce our intellectual property rights may adversely limit our competitive position.

Our charter documents contain provisions that may delay, defer or prevent a change of control.

Provisions of our certificate of incorporation and bylaws could make it more difficult for a third party to acquire control of us, even if the change in control would be beneficial to stockholders. These provisions include the following:

- division of our Board of Directors into three classes, with each class serving a staggered three-year term;
- removal of directors for cause only;
- ability of our Board of Directors to authorize the issuance of preferred stock in series without stockholder approval;

29

[Table of Contents](#)

- two-thirds stockholder vote requirement to approve specified business combinations, which include a sale of substantially all of our assets;
- vesting of exclusive authority in our Board of Directors to determine the size of the board (subject to limited exceptions) and to fill vacancies;
- advance notice requirements for stockholder proposals and nominations for election to our Board of Directors; and
- prohibitions on our stockholders from acting by written consent and limitations on calling special meetings.

30

[Table of Contents](#)

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three-month period ended December 31, 2009, we issued the following securities that were not registered under the Securities Act of 1933, as amended (the Securities Act):

- i. 1,637 shares of our Class C preferred stock to Evercore Trust Company for the benefit of our employee stockholders under our Deferred Compensation Plan; and
- ii. 1,291,401 shares of our common stock and shares exchangeable into our common stock on a 1-to-1 basis to the shareholders of privately-held companies in connection with our acquisition of the companies.

We issued the securities identified in paragraph (i) above to our directors, officers, employees and consultants under written compensatory benefit plans in reliance upon Rule 701 under the Securities Act and/or Section 4(2) of the Securities Act as transactions by an issuer not involving any public offering. We issued the securities identified in paragraph (ii) above in reliance upon Section 4(2) of the Securities Act as transactions by an issuer not involving any public offering or Regulation S promulgated under the Securities Act as sales occurring outside of the United States.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

AECOM TECHNOLOGY CORPORATION

Date: February 9, 2010

By: /s/ MICHAEL S. BURKE
Michael S. Burke
Executive Vice President, Chief Financial Officer

**Chief Executive Officer Certification Pursuant to
Rule 13a-14(a)/15d-14(a)**

I, John M. Dionisio, Chief Executive Officer of AECOM Technology Corporation, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of AECOM Technology Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Dated: February 9, 2010

**Certification of Chief Executive Officer and Chief Financial Officer Pursuant to
18 U.S.C. Section 1350**

In connection with the Quarterly Report of AECOM Technology Corporation (the "Company") on Form 10-Q for the quarterly period ended December 31, 2009 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), we, John M. Dionisio, Chief Executive Officer of the Company, and Michael S. Burke, Chief Financial Officer of the Company, hereby certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to our knowledge:

1. The Report fully complies with the requirements of Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934, as amended; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
