Common stock to be outstanding after this offering is based on the total number of shares of common stock outstanding on February 4, 2009, assumes no exercise of the underwriters' over-allotment option and does not include:

- 5,156,276 shares of common stock issuable upon the exercise of options outstanding under our stock incentive plans, with a weighted average exercise price of \$14.29 per share, of which 3,852,103 are exercisable;
- 6,728,189 shares of common stock issuable upon conversion of our convertible preferred stock units;
- 11,206,110 shares of common stock available for issuance under our 2006 Stock Incentive Plan; and
- 4,189,556 shares of common stock available for issuance under our Equity Incentive Plan.

RISK FACTORS

Investing in our common stock involves a high degree of risk. Before you decide whether to purchase any of our common stock, in addition to the following risk factors, you should carefully consider, among other things, the risks relating to our business discussed under "Risk Factors" in our quarterly report on Form 10-Q for the quarterly period ended December 31, 2008, which is incorporated herein by reference, and the other information in this prospectus supplement or the accompanying prospectus or incorporated by reference herein or therein.

Our quarterly operating results may fluctuate significantly, which could have a negative effect on the price of our common stock.

Our quarterly revenue, expenses and operating results may fluctuate significantly because of a number of factors, including:

- the spending cycle of our public sector clients;
- employee hiring and utilization rates;
- the number and significance of client engagements commenced and completed during a quarter;
- the ability of clients to terminate engagements without penalties;
- the ability of our project managers to accurately estimate the percentage of the project completed;
- delays incurred as a result of weather conditions;
- delays incurred in connection with an engagement;
- the size and scope of engagements;
- the timing of expenses incurred for corporate initiatives;
- the impairment of goodwill or other intangible assets; and
- general economic and political conditions.

Variations in any of these factors could cause significant fluctuations in our operating results from quarter to quarter and could cause the price of our common stock to fluctuate and decline.

Our charter documents contain provisions that may delay, defer or prevent a change of control.

Provisions of our certificate of incorporation and bylaws could make it more difficult for a third party to acquire control of us, even if the change in control would be beneficial to stockholders. These provisions include the following:

- division of our Board of Directors into three classes, with each class serving a staggered three-year term;
- removal of directors for cause only;
- ability of our Board of Directors to authorize the issuance of preferred stock in series without stockholder approval;
- two-thirds stockholder vote requirement to approve specified business combinations, which include a sale of substantially all of our assets;
- vesting of exclusive authority in our Board of Directors to determine the size of the board (subject to limited exceptions) and to fill vacancies;

- advance notice requirements for stockholder proposals and nominations for election to our Board of Directors; and
- prohibitions on our stockholders from acting by written consent and limitations on calling special meetings.

We do not expect to pay any cash dividends for the foreseeable future.

We do not anticipate paying any cash dividends to our stockholders for the foreseeable future. Our credit facilities also restrict our ability to pay dividends. Accordingly, you may have to sell some or all of your common stock in order to generate cash flow from your investment. You may not receive a gain on your investment when you sell our common stock and may lose some or all of the amount of your investment. Any determination to pay dividends in the future will be made at the discretion of our Board of Directors and will depend on our results of operations, financial conditions, contractual restrictions, restrictions imposed by applicable law and other factors our Board of Directors deems relevant.

Our stock price may fluctuate substantially, which will affect the prices at which the shares may be sold in the future.

The market price of our common stock has fluctuated in the past and is likely to fluctuate in the future. Among the factors that could affect our stock price are:

- quarterly variations in our operating results;
- changes in revenue or earnings estimates or publication of research reports by analysts;
- speculation in the press or investment community;
- strategic actions by us or our competitors, such as acquisitions or restructurings;
- general market conditions; and
- domestic and international economic factors unrelated to our performance.

The stock market in general has experienced extreme volatility that has often been unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the trading price of our common stock. In particular, we cannot assure you that you will be able to resell your shares at or above the price per share in this offering.

USE OF PROCEEDS

We estimate that our net proceeds (after deducting underwriting discounts and commissions payable to the underwriters and our estimated offering expenses) from this offering will be \$79.6 million (\$91.6 million if the underwriters exercise their option to acquire additional shares in full). We intend to use the net proceeds from the sale of our common stock offered hereby for general corporate purposes, which may include future acquisitions or the repayment of debt. We currently have no pending agreements or commitments with respect to any material acquisitions. Until we use the net proceeds as described above, we intend to invest the net proceeds in short-term securities.

UNDERWRITING

Under the terms and subject to the conditions in an underwriting agreement, the underwriters named below, for whom Morgan Stanley & Co. Incorporated, Merrill Lynch, Pierce, Fenner & Smith Incorporated and J.P. Morgan Securities Inc. are acting as representatives, have severally agreed to purchase, and we have agreed to sell to them, severally, the number of shares indicated below:

| <u>Underwriter</u> | <u>Number of Shares</u> |
|--|-------------------------|
| Morgan Stanley & Co. Incorporated | 2,600,000 |
| Merrill Lynch, Pierce, Fenner & Smith Incorporated | 1,000,000 |
| J.P. Morgan Securities Inc. | 400,000 |
| Total | <u>4,000,000</u> |

The underwriters and the representatives are collectively referred to as the "underwriters" and the "representatives," respectively. The underwriters are offering the shares subject to their acceptance and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the shares offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the shares offered by this prospectus supplement if any such shares are taken. However, the underwriters are not required to take or pay for the shares covered by the underwriters' over-allotment option described below.

The underwriters initially propose to offer part of the shares directly to the public at the offering price listed on the cover page of this prospectus supplement and part to certain dealers. After the initial offering of the shares, the offering price and other selling terms may from time to time be varied by the representatives.

We have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase up to an aggregate of 600,000 additional shares at the public offering price listed on the cover page of this prospectus supplement. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase about the same percentage of the additional shares as the number listed next to the underwriter's name in the preceding table bears to the total number of shares listed next to the names of all underwriters in the preceding table, less the underwriting discounts. The underwriter may exercise this option at any time within 30 days from the date of this prospectus solely to cover over-allotments.

The following table shows the per share and total public offering price, underwriting discounts and commissions, and proceeds before expenses to us. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase an additional 600,000 shares.

| | <u>Per Share</u> | <u>Without Option</u> | <u>With Option</u> |
|--|------------------|-----------------------|--------------------|
| Public offering price | \$ 20.20 | \$80,800,000 | \$92,920,000 |
| Underwriting discounts, commissions and expenses | \$ 0.202 | \$ 808,000 | \$ 929,200 |
| Proceeds, before expenses, to the Company | \$19.998 | \$79,992,000 | \$91,990,800 |

The estimated offering expenses payable by us, exclusive of the underwriting discounts and commissions, are approximately \$350,000.

Our shares are listed on the New York Stock Exchange under the trading symbol "ACM."

We and all of our directors and executive officers have agreed that, without the prior written consent of Morgan Stanley & Co. Incorporated on behalf of the underwriters, we and they will not during the period ending 30 days after the date of this prospectus supplement:

- offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock; or
- enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the common stock,

whether any such swap or transaction is to be settled by delivery of shares of common stock or such other securities in cash or otherwise. In addition, we and each such person agree that, without the prior written consent of Morgan Stanley & Co. Incorporated on behalf of the underwriters, it will not, during the period ending 30 days after the date of this prospectus supplement, make any demand for or exercise any right with respect to the registration of any shares or any securities convertible into or exercisable or exchangeable for shares. We and all of our directors and executive officers also agree and consent to the entry of stop transfer instructions with the Company's transfer agent and registrar against the transfer of shares except in compliance with the foregoing restrictions.

With respect to the Company, the restrictions described in the previous paragraph do not apply to:

- the sale of shares of common stock to the underwriters;
- the issuance by us of shares of common stock upon the exercise of an option or warrant or the conversion of a security outstanding on the date of this prospectus supplement of which the underwriters have been advised in writing;
- the establishment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act for the transfer of shares of common stock, provided that such plan does not provide for the transfer of common stock during the restricted period described above; and
- the issuance by us of securities, including shares of our common stock (and the agreement that provides for such issuance), in full or partial consideration of any future acquisitions or strategic investments, provided that such issuee agrees to be bound by the restrictions described in the previous paragraph; and

with respect to our directors and executive officers, the restrictions described in the previous paragraph do not apply to:

- transactions relating to shares of common stock or other securities acquired in open market transactions after the completion of this offering, provided that no filing under Section 16(a) of the Securities Exchange Act of 1934, as amended, shall be required or shall be voluntarily made in connection with subsequent sales of common stock or other securities acquired in such open market transactions;
- transfers of shares of common stock or any security convertible into common stock as a bona fide gift, provided that such donee agrees to be bound by the restrictions described in the previous paragraph;
- transfers to any trust for the direct or indirect benefit of the undersigned or immediate family of the undersigned, provided that such transferee agrees to be bound by the restrictions described in the previous paragraph; and

- the sale of shares of common stock in accordance with a 10b5-1 plan existing or entered into prior to the date of this prospectus supplement, provided that no shares are transferred pursuant to the plan during the restricted period described above.

In order to facilitate the offering of the shares, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the shares. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under the over-allotment option. The underwriters can close out a covered short sale by exercising the over-allotment option or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under the over-allotment option. The underwriters may also sell shares in excess of the over-allotment option, creating a naked short position. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, shares in the open market to stabilize the price of the shares. These activities may raise or maintain the market price of the shares above independent market levels or prevent or retard a decline in the market price of the shares. The underwriters are not required to engage in these activities and may end any of these activities at any time. We have been advised by the underwriters that, prior to purchasing the common stock being offered pursuant to this prospectus supplement, on March 3, 2009, Morgan Stanley & Co. Incorporated purchased, on behalf of the syndicate, 153,200 shares of our common stock at an average price of \$20.2961 per share in stabilizing transactions.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act.

A prospectus in electronic format may be available on websites maintained by one or more underwriters participating in this offering. The representatives may agree to allocate a number of shares to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make Internet distributions on the same basis as other allocations.

Certain of the underwriters and their respective affiliates have from time to time performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses. The underwriters will not receive any benefit from this offering other than the underwriting discounts and commissions described in this prospectus supplement. The address of the representatives of the underwriters is Morgan Stanley & Co. Incorporated, Merrill Lynch, Pierce, Fenner & Smith Incorporated, and J.P. Morgan Securities Inc., c/o Morgan Stanley & Co. Incorporated, 1585 Broadway, New York, New York 10036.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to fixed charges for each of the periods indicated:

| Quarter ended December 31, 2008 | Year ended September 30, 2008 | Year ended September 30, 2007 | Year ended September 30, 2006 | Year ended September 30, 2005 | Year ended September 30, 2004 |
|------------------------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|
| 5.5x | 7.0x | 5.5x | 3.4x | 4.5x | 4.8x |

The ratio of earnings to fixed charges was computed by dividing earnings by fixed charges. For this purpose, fixed charges consist of interest expense, including amortization of capitalized debt issuance costs and such portion of rental expense that is attributable to interest expense. Earnings consist of income before taxes, excluding undistributed earnings of unconsolidated joint ventures, plus fixed charges.

RATIO OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED SECURITY DIVIDENDS

The following table sets forth our ratio of earnings to combined fixed charges and preferred security dividends for each of the periods indicated:

| Quarter ended December 31, 2008 | Year ended September 30, 2008 | Year ended September 30, 2007 | Year ended September 30, 2006 | Year ended September 30, 2005 | Year ended September 30, 2004 |
|------------------------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|
| 5.5x | 7.0x | 5.5x | 3.1x | 3.3x | 3.4x |

The ratio of earnings to combined fixed charges and preferred security dividends was computed by dividing earnings by combined fixed charges and preferred security dividends. For this purpose, fixed charges consist of interest expense, including amortization of capitalized debt issuance costs and such portion of rental expense that is attributable to interest expense. Earnings consist of income before taxes, excluding undistributed earnings of unconsolidated joint ventures, plus fixed charges.

DESCRIPTION OF OTHER SECURITIES

We will set forth in the applicable prospectus supplement a description and the particular terms of any debt securities or warrants that may be offered pursuant to this prospectus.

PLAN OF DISTRIBUTION

The securities being offered by this prospectus may be sold by us or by a selling securityholder:

- through agents;
- to or through underwriters;
- through broker-dealers (acting as agent or principal);
- directly by us or a selling securityholder to purchasers, through a specific bidding or auction process or otherwise;
- through a combination of any such methods of sale; or
- through any other methods described in a prospectus supplement.

The distribution of securities may be effected, from time to time, in one or more transactions, including block transactions and transactions on the New York Stock Exchange or any other exchange where the securities may be traded. The securities may be sold at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices relating to the prevailing market prices or at negotiated prices. The consideration may be cash or another form negotiated by the parties. Agents, underwriters or broker-dealers may be paid compensation for offering and selling the securities. That compensation may be in the form of discounts, concessions or commissions to be received from us or from the purchasers of the securities. Dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and compensation received by them on resale of the securities may be deemed to be underwriting discounts. If such dealers or agents were deemed to be underwriters, they may be subject to statutory liabilities under the Securities Act.

Agents may, from time to time, solicit offers to purchase the securities. If required, we will name in the applicable prospectus supplement any agent involved in the offer or sale of the securities and set forth any compensation payable to the agent. Unless otherwise indicated in the prospectus supplement, any agent will be acting on a best efforts basis for the period of its appointment. Any agent selling the securities covered by this prospectus may be deemed to be an underwriter, as that term is defined in the Securities Act, of the securities.

If underwriters are used in a sale, securities will be acquired by the underwriters for their own account and may be resold, from time to time, in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale, or under delayed delivery contracts or other contractual commitments. Securities may be offered to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. If an underwriter or underwriters are used in the sale of securities, an underwriting agreement will be executed with the underwriter or underwriters at the time an agreement for the sale is reached. The applicable prospectus supplement will set forth the managing underwriter or underwriters, as well as any other underwriter or underwriters, with respect to a particular underwritten offering of securities, and will set forth the terms of the transactions, including compensation of the underwriters and dealers and the public offering price, if applicable. The prospectus and the applicable prospectus supplement will be used by the underwriters to resell the securities.

If a dealer is used in the sale of the securities, we, a selling securityholder, or an underwriter will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. To the extent required, we will set forth in the prospectus supplement the name of the dealer and the terms of the transactions.

We or a selling securityholder may directly solicit offers to purchase the securities and we or a selling securityholder may make sales of securities directly to institutional investors or others. These persons may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale of the securities. To the extent required, the prospectus supplement will describe the terms of any such sales, including the terms of any bidding or auction process, if used.

Agents, underwriters and dealers may be entitled under agreements which may be entered into with us to indemnification by us against specified liabilities, including liabilities incurred under the Securities Act, or to contribution by us to payments they may be required to make in respect of such liabilities. If required, the prospectus supplement will describe the terms and conditions of such

indemnification or contribution. Some of the agents, underwriters or dealers, or their affiliates may be customers of, engage in transactions with or perform services for us or our subsidiaries in the ordinary course of business.

Under the securities laws of some states, the securities offered by this prospectus may be sold in those states only through registered or licensed brokers or dealers.

Any person participating in the distribution of common stock registered under the registration statement that includes this prospectus will be subject to applicable provisions of the Exchange Act, and the applicable SEC rules and regulations, including, among others, Regulation M, which may limit the timing of purchases and sales of any of our common stock by any such person. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of our common stock to engage in market-making activities with respect to our common stock. These restrictions may affect the marketability of our common stock and the ability of any person or entity to engage in market-making activities with respect to our common stock.

Certain persons participating in an offering may engage in over-allotment, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act that stabilize, maintain or otherwise affect the price of the offered securities. If any such activities will occur, they will be described in the applicable prospectus supplement.

SELLING SECURITYHOLDERS

Information about selling securityholders, where applicable, will be set forth in a prospectus supplement, in a post-effective amendment, or in filings we make with the SEC under the Exchange Act that are incorporated by reference.

LEGAL MATTERS

In connection with particular offerings of the securities in the future, and if stated in the applicable prospectus supplements, the validity of those securities will be passed upon for us by Gibson, Dunn & Crutcher LLP, and for any underwriters or agents, by counsel named in the applicable prospectus supplement.
